with a specialization in Accounting and Finance This chapter argues that such a characterization is not supported by academic facts as UTS Insearch is not a secondary education institution but rather a pathway or transition provider leading to university level study The fourth chapter presents a structural analysis of UTS Insearch based on official archival materials from 2004 including brochures handbooks and curriculum documents The Business that Diplomas including the Diploma of Business offered by UTS INSEARCH are positioned at AQF Level 5 and that language or preparatory programs such as the Academic English Program AEP and the Direct Entry English Program DEEP are non AQF non award programs intended as academic support rather than substitutes for formal qualifications By comparing learning outcomes notional study hours and pedagogical objectives across Year 12 AEP DEEP and Diploma programs this chapter demonstrates that a Diploma constitutes an entry level higher education qualification broadly comparable to the first year of university study rather than a replacement for senior secondary completion The analysis underscores the categorical distinction between secondary certification and higher education credentials within the AQF architecture thereby rejecting any interpretation that conflates the two levels The chapter then critically examines the Certificate of Equivalency issued by the Directorate General of Primary and Secondary Education Reference No 1454 D D5 DM 2019 which declared the combination of Gibran Rakabuming Raka s educational experiences namely Secondary 3 4 at Orchid Park Secondary School and subsequent studies at UTS INSEARCH as equivalent to Grade 12 SMA SMK Drawing on AQF level descriptors and established international equivalency practices the author concludes that this determination functioned primarily as an administrative and instrumental measure for document verification purposes rather than as the outcome of a rigorous academic assessment comparing curricula and learning outcomes Fundamentally the aggregation of two distinct and non equivalent levels lower secondary education and a higher education diploma does not conform to formal equivalency principles under either the AQF or UNESCO s International Standard Classification of Education ISCED Accordingly the equivalency letter is more accurately understood as a limited form of administrative recognition rather than as evidence that the individual concerned formally completed senior secondary education The ninth opens a space for testimonies from various parties who have questioned the legitimacy of Gibran Rakabuming Raka s overseas educational record particularly the claim of having completed Grade 12 at UTS INSEARCH Sydney Testimony from Ikhsan Katonde an Indonesian citizen residing in Sydney states that Gibran attended an English language course at the Insearch Language Centre for approximately six months and did not complete the program This account directly contradicts official documentation issued by the Ministry of Education which assessed Gibran as possessing knowledge equivalent to that of a graduate of an Indonesian vocational high school SMK specializing in Accounting and Finance Additional accounts from members of the Indonesian diaspora in Sydney as conveyed through interviews conducted by Roy Suryo further reinforce these doubts by emphasizing that UTS INSEARCH is not a secondary education institution delivering Year 12 but rather a pathway or diploma provider designed to prepare students for entry into

higher education At the same time an official statement by Dr Eko Susanto a senior official within the Directorate General of Primary and Secondary Education explained that the equivalency letter for Gibran was issued on the basis of a combination of his education at Orchid Park Secondary School Grades 9 10 and his enrollment in the Diploma of Business program at UTS INSEARCH However academic analysis reveals a fundamental misalignment between these educational levels and the standards governing senior secondary curricula in both Indonesia and Australia The Diploma of Business is classified at AQF Level 5 corresponding to early stage higher education rather than to Grade 12 which is situated at AQF Level 3 Consequently this chapter presents a comprehensive account of the contradictions between educational facts equivalency policy decisions and their broader implications for the integrity of state administration within Indonesia s national political context
