## Understanding War:

**Understanding War** W. B. Gallie, 1991 This clear and reflective book is based around two main ideas that the destructiveness of war is a cumulative process and that the superpowers must act together to prevent future nuclear destruction

Potholm, 2016-08-03 The third book in Professor Christian Potholm's war trilogy which includes *Winning at War* and *War Wisdom* *Understanding War* provides a most workable bibliography dealing with the vast literature on war and warfare As such it provides insights into over 3000 works on this overwhelmingly extensive material *Understanding War* is thus the most comprehensive annotated bibliography available today Moreover by dividing war material into eighteen overarching themes of analysis and fifty seminal topics and focusing on these *Understanding War* enables the reader to access and understand the broadest possible array of materials across both time and space beginning with the earliest forms of warfare and concluding with the contemporary situation Stimulating and thought provoking this volume is essential for an understanding of the breadth and depth of the vast scholarship dealing with war and warfare through human history and across cultures

28th Parliament through the 1st session of the 48th Parliament      Understanding War W B Gallie \*Decd\*, W. B. Gallie, 2014-04-08 First published in 1990 With the exception of Clausewitz no reflective thinker has seriously engaged with the concept of war with its persistent changeability and the dominant direction of its changes The results of this failure are seen in the extreme logical weakness of most debates during the last two centuries on the possibility of eliminating war and since 1945 on the possibility of eliminating nuclear weapons Orderly clear and reflective Understanding War develops two main theses first that the horrendous escalation of war's destructiveness in this century is primarily the result of the inherently cumulative character of war itself rather than of the application to war of recent science based technologies and second that the irreversible destructiveness of nuclear weapons suggests how joint action by the superpowers could prevent their being used in any future war      **The Economist** ,1905      The Cambrian ,1918      **Parliamentary Debates** ,1890
