personalidad de relieve de la cultura española y su nombre llegó a ser muy respetado en ámbitos periodísticos patrios. Acometió con José Ortega y Gasset quien lo honraba con su amistad y admiraba su inteligencia alguna de las más importantes empresas culturales de su tiempo. Pero Vela no se interesó nunca por las veleidades de la fama; fue uno de esos raros escritores que suman a su soberbia actividad intelectual un gran estilo, hecho de discreción y elegancia. Los ensayos aquí recogidos dan fe de un interés plural que abarca la actualidad y la historia, la literatura y el arte, la política, la sociología, la filosofía, la ciencia. No se muestra su autor perdido en medio de tan vertiginosa variedad; no hay en estos escritos titubeos ni caprichosas intuiciones ni divagaciones sin rumbo, y si podemos llamar a esas páginas ensayos, palabra que a decir verdad no significa gran cosa o significa demasiadas cosas distintas, es porque son el producto de una operación intelectual consistente en someter los más diversos aspectos de la realidad humana a examen riguroso para ofrecernos plausibles formas nuevas de ver esa realidad. Vela publicó en varias recopilaciones un porcentaje irrisorio de su abundantísima producción escrita, y aunque las elecciones fueron siempre acertadas y facilitan la labor de cualquier antólogo, al margen quedaron excelentes trabajos de los que también hallar muestra el lector del presente volumen.
