## Verbal Complexes:

**Verbal Complexes** Hilda Judith Koopman, Anna Szabolcsi, 2000 In this book Hilda Koopman and Anna Szabolcsi propose a unified analysis of restructuring constructions in Hungarian Dutch and German that involves only overt phrasal movement and derives variation from the varying sizes of pied piping constituents Restructuring verbs in Hungarian exhibit three patterns the will begin up climb and the up will begin climb orders common in Dutch and the up climb begin will order common in German Traditionally these have been analyzed as involving no movement or covert movement phrasal movement and head movement respectively The first goal of this book is to develop a unified analysis where 1 the same features are checked in all three orders 2 all feature checking is achieved by overt movement and 3 all three types involve phrasal movement The second goal is to account for the significant variation across Hungarian Dutch and German which is argued to arise from the varying sizes of the constituents pied piped in the course of movement In addition to its novel theoretical claims the book presents the first systematic description of Hungarian complex verbs and the first comparison of West Germanic and Hungarian Current Studies in Linguistics No 34 Complex Predicates Stefan Müller, 2002-01 Complex Predicates examines a number of linguistic phenomena including auxiliary and verb combinations causative constructions predicatives depictive secondary predicates and particle and verb combinations and uses scrambling and fronting data to determine that all except the depictive secondary predicates should be treated as complex predicates Müller's analysis of inflection and derivation is compatible with syntactical analysis of particle verbs as a byproduct it also solves the particle verb bracketing paradox often discussed in the literature Grammatical gaps: definition, typology and theory Thomas Strobel, Helmut Weiß, 2023-12-11 Grammatiken sind metaphorisch gesprochen Anweisungen zum richtigen Gebrauch einer Sprache Interessanterweise zeigen Grammatiken offenbar Lücken die dadurch entstehen dass für bestimmte Bereiche Regeln bzw Formen ganz fehlen oder dass sich einzelne Regeln widersprechen und der daraus resultierende Konflikt deren Anwendung verhindert Grammatische Lücken auf deren Relevanz für eine realistische Grammatiktheorie wohl zuerst Marga Reis hingewiesen hat sind in den letzten Jahren schon vereinzelt in den Fokus der Forschung geraten Das Sonderheft versammelt Arbeiten zu verschiedenen Arten von Lücken und zeigt damit wie ertragreich und wichtig die Erforschung grammatischer Lücken sein kann Grammars are metaphorically speaking instructions for the correct use of languages One might expect that grammars are complete i.e. that they provide an appropriate solution for each utterance context Interestingly however grammars seem to show gaps which are caused by the fact that rules or forms in certain domains are missing completely or that individual rules contradict each other and that the resulting conflict prevents their application Grammatical gaps whose relevance for a realistic theory of grammar was probably first pointed out by Marga Reis have come into the focus of research in recent years The present special issue collects papers on different kinds of gaps and shows how fruitful and important the investigation of grammatical gaps can prove to be Inhalt Introduction Ralf Vogel Grammatical gaps

Proceedings of the Olomouc Linguistic Colloquium 2023* Janebová, Markéta,Čakányová, Michaela,Emonds, Joseph, The latest volume of OLINCO proceedings is a selected set of sixteen papers that grew from presentations at OLINCO 2023 the international Olomouc Linguistics Colloquium held at Palack University in June 2021 The papers collected here are unified by the topic of the colloquium Language Use and Linguistic Structure in that they all in one way or the other address the central questions of the study of human language They all use standard scientific methodology and theory and solidly researched empirical evidence in favor of formalized structural representations of the language system The Human Mind James Sully,1892 **Actes** ,1917 **Constraints on Pulaar Phonology** Mamadou Ousmane Niang,1996 *Constraints in Pulaar Phonology* provides clear and convincing analyses and solutions to linguistic phenomena whose treatment in the literature remained unsatisfactory until now An analysis of the metrical structure and other morphological and phonological processes in Pulaar shows the need for further distinctions beyond the generally admitted binary ones The argument is supported by various processes that obtain in Pulaar a dialect of Fula a language of the West Atlantic Branch of the Niger Congo Language Family The analyses adopted show Pulaar not only breaks this binary distinction but also makes a four way weight distinction in contrast to other views according to which only a two way weight distinction prevails in languages The analysis of the metrical system of Pulaar shows that stress assignment is sensitive to the sonority hierarchy of the syllables in the word Four sonority levels CV **Outlines of Psychology** James Sully,1892 *The Souletin Verbal Complex* Ulrich J. Sapp,2011-01-26 This research monograph is an empirical and theoretical study of clause final verbal complexes in the history of German The book presents corpus studies of Middle High German and Early New High German and surveys of contemporary varieties of German These investigations of the verbal complex address not only the frequencies of the word orders but also the linguistic

factors that influence them On that empirical basis the analysis adopted is the classic verb final approach with alternative orders derived by Verb Projection Raising Verb Raising in these historical and modern varieties is subject to morphological prosodic and sociolinguistic restrictions suggesting that the orders in question are not driven by narrow syntax but by their effects at the interface with phonology This study will be of interest to students and scholars studying the diachronic syntax of German West Germanic dialect syntax and the relationship between prosody and word order **Proceedings of the Nineteenth International Congress of Americanists** Frederick Webb Hodge,1917 The Slavonic Review ,1927
