The Forgotten Conscript:

The Forgotten Conscript Warwick Taylor, 1995 **Forgotten Conscripts** Jennie L. Hanna, 2022-02-20 Teenage years can be difficult but military connected adolescents have added obstacles growing up within the military culture They are essentially conscripted into serving their country whether they want to or not from the moment they are born For the youth of this generation who have known nothing but a world consistently engaged in global conflict capable of ripping their loved ones away from them the path they travel can be arduous lonely and hidden from the world Schools are one of the few places that adolescents could receive support nurturing and acceptance outside of the home Yet military students and their needs remain unacknowledged making them an invisible minority in education With more than four million military connected children in the nation over 80% enrolled in public schools these students deserve to have a light shined on their lives

Forgotten Conscripts Understanding the Needs of Military Connected Adolescents looks deeper into the perceptions beliefs and experiences of military connected adolescents to better inform teaching and learning among members of this culture so they might no longer be forgotten *Conscription in Britain, 1939-1964* Roger Broad, 2006 Compulsory military service in Britain can be traced back to Anglo Saxon times but it was only in the twentieth century that it became universal

Conscription occurred during both world wars with a total of eight million men in total being conscripted into the army navy and air forces and after the end of the Second World War compulsory service continued for another eighteen years to meet overseas commitments and under the threat of the Cold War Conscription in Britain 1939 1963 outlines the historical record of conscription from the fyrd of the Dark Ages through to Nelson's day and up to and including the First World War The book goes on to concentrate on conscription during the Second World War and National Service which continued in the decades afterwards The strategic and political considerations that governed British military recruitment in the period 1939 1963 are described and analyzed Individual experiences in the services are examined putting human flesh on the strategic and political skeleton The book looks at aspects of conscription including the demands made on the services how officers and men were selected and trained and how discipline was imposed The years following the Second World War are also investigated considering the effect of twenty four years continuous conscription on the services themselves on women's rights on attitudes towards authority and patriotism on race issues and on the breakout of individualism in the 1960s *The Conscript* Alexandre Dumas, 1874 *Waterloo; a sequel to The conscript of 1813*, 1898 **The Toughest Half** Elizabeth Stewart, 2021-07-01 Lasting barely two centuries throughout the 1700s and 1800s the Industrial Revolution in Britain propelled the country into the role of the world's premier industrial nation Known as the midwife of the Industrial Revolution coal was literally the driving force behind this power Although referred to as the black diamond coal is not a thing of beauty yet like the true diamond it is representative of power and wealth Coal mining usually evokes images of tough men glistening with the sweat of underground toil We talk about man power and manual labour the industry has become synonymous with

men Rarely if ever do women come to mind yet until an Act of 1942 banned them from working down the mines women worked alongside men their toil equally as gruelling in conditions just as appalling Forbidden by Victorian prudery from working underground they were replaced at much greater expense to the mine owners by ponies The efforts of these women every bit as responsible as men for creating Britain's once greatest industry have rarely been acknowledged During the 1926 general strike and lockout Herbert Smith President of the Miners Federation of Great Britain reported that half the attendees at union meetings were women And these he insisted are always the toughest half This book tells of the history of coal and coal mining from mediaeval times to the demise of the industry in Britain in the 1990s and describes women's role in this history and how it affected their lives Through a combination of historical narrative fiction and biography the book gives a voice to these diminished others wives mothers and daughters whose persistence courage pride and sacrifice also contributed to the profits of wealthy mine owners Their stories are told through the prism of historical events the frightened little girl forced to work alone in subterranean darkness the poverty stricken young woman confronting an unwanted pregnancy those enduring the loss of sons and partners to a deadly occupation and women who through adversity took the opportunity to publicly reveal their collective strength Gentle and gruff warm hearted and implacable these battlers against grime beaters of carpets painters decorators and cooks activists and staunch supporters of strikes and lockouts underpinned the foundations of Britain's coal industry Woven through this book is the true story of the author's mother a miner's daughter Her life too was hard and closely entwined with coal mining to which she made over many years a considerable contribution not only to the industry but to the mining communities in which she worked

Men in reserve Juliette Pattinson, Arthur McIvor, Linsey Robb, 2017-02-01 Men in reserve focuses on working class civilian men who as a result of working in reserved occupations were exempt from enlistment in the armed forces It uses fifty six newly conducted oral history interviews as well as autobiographies visual sources and existing archived interviews to explore how this group articulated their wartime experiences and how they positioned themselves in relation to the hegemonic discourse of military masculinity It considers the range of masculine identities circulating amongst civilian male workers during the war and investigates the extent to which reserved workers draw upon these identities when recalling their wartime selves It argues that the Second World War was capable of challenging civilian masculinities positioning the civilian man below that of the soldier hero while simultaneously reinforcing them by bolstering the capacity to provide and to earn high wages frequently in risky and dangerous work all which were key markers of masculinity

Conscription and Conflict in the Confederacy Albert Burton Moore, 1924

The History of a Conscript of 1813 and Waterloo Emile Erckmann, 1916

Conscripts Ilana R. Bet-El, 2003-05-18 Drawing on diaries letters and personal accounts from conscripts who served on the Western Front in the latter half of the Great War this is the first book to explore the contribution they made to the war effort By the end of the war more than 2.5 million men had been

conscripted but their memory has not lived on they are the lost legions of the First World War Here at last their story is told the story of ordinary men from manual workers to clerks and solicitors who became soldiers fought and for those who survived went home In this ground breaking work Ilana Bet El explains their absence from the imagery of the war She reconstructs the daily life of soldiers on the Western Front as we are told in the conscripts own words of the grim reality of dirt and lice and hunger the mysteries of army pay and military discipline and the joys of leave and cigarettes It is a compelling journey back in time which finally gives them an image and explains their absence from the public one It is a discovery of the forgotten memory of Britain s conscript army of the First World War The Mine Management Professions in the Twentieth-century Scottish Coal Mining Industry Andrew Perchard,2007 In this book Dr Perchard attempts to redress the exclusion of colliery managers and other mining professionals from the history of British and particularly Scottish coal industries by examining these groups within the most crucial period of their ascendancy 1930 1966 in the Scottish coal mining industry This work seeks to place such persons within their context and to examine their roles statuses and behaviours through their relationships with employees and the execution of their functions also examining their terms and conditions of employment the outlook of their professional associations and that of their union Through all this Dr Perchard illustrates how this growing consciousness amongst managerial employees in the industry was accompanied by an intense public discussion within the mining professions over their future shape principles and occupational standards *The Lost Cause* ,1898 **The Round Table** ,1916 **The History of a Conscript of 1813** Emile Erckmann,Alexandre Chatrian,1946 **The Bulletin** ,1957 *Parliamentary Debates (Hansard)*.
