Sustainable Development And Learning Framing The Issues

Stephen Gough, William Scott

Sustainable Development And Learning Framing The Issues:

Sustainable Development and Learning: framing the issues Stephen Gough, William Scott, 2003-12-16 This book examines the difficult and wide ranging issues relating to how we understand our environment our place in it and how we choose to act This comprehensive text provides an overview of these developing key issues illustrating how through schooling higher education professional training and development and awareness raising people can bring about change as well as engaging in debate and critique of issues The book builds on existing work across a number of fields as well as on original international research in order to model the complexity of the problems the institutional contexts in which they arise and the interrelationships between these Areas explored include the policy context the links between sustainable development and learning the economic and moral interdependence of humans and nature the management assessment and evaluation of learning and globalisation The book suggests ways in which those responsible for learning can target their efforts appropriately matching straightforward solutions to simple problems and designing complex interventions only where these are needed This text will be a valuable resource for anyone studying Masters degrees and MBAs that focus on environment or sustainable development and for professionals dealing with problems on a day to day basis Though a free standing text its analysis is supported by a companion reader *Key Issues in Sustainable Development and Learning* a critical review *Key Issues in Sustainable Development and Learning* Stephen Gough, William Scott, 2014 This book presents seminal readings from existing literature alongside specially commissioned critical vignettes from leading thinkers with interests in sustainable development and learning The book sets out to inform readers about the many perspectives that exist and to challenge assumptions they may have about both sustainable development and learning Through the readings and vignettes the book raises wide ranging issues of how we choose to act Following the format of its companion volume *Sustainable Development and Learning framing the issues* the book builds on existing work across a number of fields as well as on original international research *Key Issues in Sustainable Development and Learning* a critical review is a major resource for anyone studying for masters degrees focusing on environment and sustainable development It is also a valuable tool for professionals in both public and private sector who are dealing with these issues daily Bill and Steve s book for Routledge *Sustainable Development and Learning framing the issues* is one of the academic sources cited by the United Nations in its draft international implementation scheme for the Decade of Education for Sustainable Development which was launched by Kofi Annan last month *Handbook of Theory and Practice of Sustainable Development in Higher Education* Walter Leal Filho, Ulisses M. Azeiteiro, Fátima Alves, Petra Molthan-Hill, 2017-02-24 This Handbook approaches sustainable development in higher education from an integrated perspective addressing the dearth of publications on the subject It offers a unique overview of what universities around the world are doing to implement sustainable development i e via curriculum innovation research activities or practical projects and how their efforts relate to education for sustainable development at the

university level The Handbook gathers a wealth of information ideas best practices and lessons learned in the context of executing concrete projects and assesses methodological approaches to integrating the topic of sustainable development in university curricula Lastly it documents and disseminates the veritable treasure trove of practical experience currently available on sustainability in higher education

Proceedings of the International Conference Theory and Applications in the Knowledge Economy TAKE 2018 Gaby Neumann,Justyna Majewska, ,Szymon Truskolaski,2018-07-08

Foreword TAKE 2018 follows with success the two previous editions We gather 60 papers presented by scholars from 15 countries which address the complex relation between theory and applications in the realm of the knowledge economy We address specific aspects of knowledge management human resource development and management intellectual capital and many other scientific areas relevant for the economy of today We hope these proceedings will summarize and illustrate well what happened in the conference and look forward for next years edition Thank you very much for your participation as local organizer keynote speaker stream leader reviewer author helper or just participant Eduardo Tom Conference Chair Poznan July 2018

Debates in Citizenship Education James Arthur,Hilary Cremin,2012 Debates in Citizenship Education encourages student and practising teachers to engage with and reflect on key topics concepts and debates that they will have to address throughout their career It places the specialist field of citizenship education in the wider context and aims to enable teachers to reach their own informed judgements and argue their point of view with deeper theoretical knowledge and understanding

EDUCATION FOR SUSTAINABILITY -Volume I Robert V. Farrell ,George Papagiannis,2009-10-10 Education for Sustainability is a component of Encyclopedia of Human Resources Policy Development and Management in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty one Encyclopedias The Theme on Education for Sustainability provides the essential aspects and a myriad of issues of great relevance connection between education and more sustainable futures and embraces a reality that all need to know It demands a much broader interpretation of education a holistic perspective that accommodates new and challenging ideas Such education is imperative in creating the knowledge wisdom and vision needed for the transition to a more sustainable world In helping to design this sustainable future education for sustainability implements a vital systemic perspective that will allow for a complex interdependence of all life forms and Earth This volume is aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers and NGOs

Environmental and Sustainability Education Policy Katrien Van Poeck,Jonas A. Lysgaard,Alan Reid,2018-12-07 This timely collection surveys and critiques studies of environmental and sustainability education ESE policy since the mid 1990s The volume draws on a wide range of policy studies and syntheses to provide readers with insights into the international genealogy and priorities of ESE policy Editors and contributors call for renewed attention to the possibilities for future directions in light of previously published work and innovations in scholarship They also offer critical

commentary on the evolution of research trends approaches and findings Including a wide range of examples of ESE policy and policy research the book draws on studies of educational initiatives and legislation policy making processes and rhetoric ideological orthodoxy and critique curriculum making and educational theory globalisation and neoliberalism climate change and environmental worldviews and much more In addition introductory commentary from the editors traces how ESE researchers have dealt with key trends complexities and issues in the policy practice research nexus both conceptually and empirically Throughout the collection contributions illustrate how researchers might reimagine and reinvigorate policy research on ESE including how working with other fields and diverse perspectives ideas and expertise will aid the cross fertilisation of a complex terrain of ideas policy and practice This book is based on a special issue of *Environmental Education Research* *Sustainability Accounting and Accountability* Jan Bebbington, Jeffrey Unerman, Brendan O'Dwyer, 2014-06-05 The management and balancing of social environmental and economic sustainability is one of the most complex and urgent challenges facing both private and public sector organizations today with these challenges of sustainability posing many risks to and many opportunities for advancing the aims and performance of organizations Accounting and accountability processes and practices provide key tools to help organizations to more effectively identify and manage the risks and opportunities of sustainability Popular features from the first edition are retained whilst recent developments in theory and practice are accounted for New substantive chapters on water resource accounting carbon accounting and decision making have been introduced and the book continues to benefit from a host of expert contributors from around the world including Jesse Dillard Rob Gray Craig Deegan This comprehensive and authoritative textbook will continue to be a key resource for students of accounting and sustainability as well as being a vital tool for researchers

Environmental Education, 2008 **Museums & Social Issues**, 2006 *Education, Globalization, and Social Change* Hugh Lauder, 2006 Education is seen as central to economic competitiveness the reduction of poverty and inequality and environmental sustainability The editors have selected key writings that examine the social and economic limits and possibilities of education in addressing these fundamental problems This new reader establishes the field of sociology of education with a particular focus on papers that analyse the nature and extent of globalization in education A general introduction presents the key concepts in the sociology of education and outlines the major theories and debates especially in relation to globalization Each section is accompanied by a part opener explaining and contextualizing the readings within a larger educational and sociological context *South African Journal of Higher Education*, 2008 **Environmental Citizenship** Andrew Dobson, Derek Bell, 2006 With a multidisciplinary perspective this book considers the theory and practice of environmental citizenship the obstacles to its realization and the opportunities it presents for bringing about environmental and social sustainability **The Politics of Unsustainability** Ingolfur Blühdorn, Ian Welsh, 2008 Two decades after its launch by the UN Brundtland Commission the paradigm of sustainability seems to have reached its limits

Whilst the concept figures more prominently in public debate and policy making than ever before the ecological footprint of advanced liberal consumer societies continues to grow and the forceful economic development of countries such as China and India reinforces concerns that the world is moving further away from rather than closer towards the ideal of sustainability Given the proven failure of ecological modernisation strategies to secure sustainability the traditional question How may our established lifestyles and socio economic practices be made more sustainable needs to be supplemented by a second equally important question How do advanced modern consumer democracies try and manage to sustain what is known to be unsustainable Put differently traditional research into the politics of sustainability needs to be supplemented by a new line of research into the politics of unsustainability Exploring the recent transformation of eco political discourses and a variety of ways in which the unfolding paradox of sustaining the unsustainable is being managed the present volume pioneers this new research agenda This book was previously published as a special issue of Environmental Politics

Science and Environmental Education Ulisses Miranda Azeiteiro,2008 This book ties to bridge the gap between science and environmental education by describing a set of projects initiatives and field activities which aim at raising awareness on the environment and encourage action The various case studies guarantee that a special emphasis is given to practice as opposed to just theory

Restructuring Student Affairs in Higher Education Christina J. Lunceford,2006

Landscapes and Learning Margaret Somerville,Kerith Power,Phoenix de Carteret,2009 Places are made after their stories Just as place names describe complex and conflicted place making aspirations so with all marks associated with the marking of places tracks the symbolic representation of these in song dance and poetic speech indeed all the technologies that join up distances into narratives they all inscribe the earth s surface with the forms of stories Of course these are not the same as the foundational myths of imperial cultures whose aim is to displace any prior discourse of place making They are stories of and as journeys passages in a double sense constitutionally incomplete because they always await their completion in the act of crossing over or meeting which of course is endless Paul Carter *Landscapes and Learning* maps some of these stories and passageways to open up new place making possibilities The book uses the lens of place to explore how we can respond differently to some of the major questions of our time Postcolonial global concerns such as increased displacement and migration the loss of indigenous knowledges and the imperatives of environmental degradation and climate change require critical educational responses Place studies provides new languages and fresh metaphors to open up interdisciplinary conversations in the space between local and global and indigenous and non indigenous knowledges Through its focus on the mutual constitution of bodies identities histories spaces and places place studies offers a conceptual tool for important

cultural and environmental transformations

Forthcoming Books Rose Arny,2003
