E. Delgado, 2008-03-02 A mesmerizing novel you always seek yet seldom find Marlo Clemente is confronted with continuous turmoil at home His father s boisterous views of women haunt him as he is told that all women are evil wanting only the material and causing all men the worst of pains This has dire consequences for young Marlo as he matures and struggles with loving his mother and yet facing his father s twisted representation of a world full of vixen dominance Marlo looks to his extraordinary artistic talent and two best friends for solace from everyday home life But one of his friends Danny becomes romantically involved with a young girl who ends up crushing Danny s heart This only reinforces what his father has long since warned Confusion sets in further when Marlo meets Desiree Castillo a girl unlike others For she too sees the same magic in Marlo s sandcastle dreams and even tells a story of the first sandcastle which legend has it was built long ago near the Yucatan Peninsula Marlo struggles to keep his dream of art school alive while still trying to find the long lost relationship that has evaded him and his mother He too comes to terms with his deep attraction towards Desiree only to eventually meet her twin cousin Divina A two sided world Marlo encounters only to wonder whether his tideless dreams will ever come to pass **Eternal Words** J. J. Dewey, 2006 **The Sand Castle, and Three Other Plays** Lanford Wilson, 1970 THE STORIES WANDERING First presented at the Mark Taper Forum in Los Angeles as part of an omnibus program entitled The Scene and then Off Broadway as part of Collision Course a similar program This brilliantly inventive short **The Bounds of Possibility** Cian Dorr, John Hawthorne, Juhani Yli-Vakkuri, 2021-11-01 In general a given object could have been different in certain respects For example the Great Pyramid could have been somewhat shorter or taller the Mona Lisa could have had a somewhat different pattern of colours an ordinary table could have been made of a somewhat different quantity of wood But there seem to be limits It would be odd to suppose that the Great Pyramid could have been thimble sized that the Mona Lisa could have had the pattern of colours that actually characterizes The Scream or that the table could have been made of the very quantity of wood that in fact made some other table However there are puzzling arguments that purport to show that so long as an object is capable of being somewhat different in some respect it is capable of being radically different in that respect These arguments rely on two tempting thoughts first that an object s capacity for moderate variation is a non contingent matter and second that what is possibly possible is simply possible The Bounds of Possibility systematically investigates competing strategies for resolving these puzzles and defends one of them Along the way it engages with foundational questions about the metaphysics of modality **The Congregationalist** , 1922 Quondam a Soliloquy Peter`
