With Strangers:

Conversations with Strangers William Labov, 2023-08-17 This Element documents the evolution of a research program that began in the early 1960s with the author's first investigation of language change on Martha's Vineyard. It traces the development of what has become the basic framework for studying language variation and change. Interviews with strangers are the backbone of this research; the ten American English speakers appearing here were all strangers to the interviewer at the time. They were selected as among the most memorable from thousands of interviews across six decades. The speakers express their ideas and concerns in the language of everyday life, dealing with their way of earning a living, getting along with neighbors, raising a family, all matters in which their language serves them well. These people speak for themselves. And you will hear their voices. What they have to say is a monument to the richness and variety of the American vernacular, offering a tour of the studies that have built the field of sociolinguistics.

Dancing with Strangers Mel Watkins, 1998 Watkins's family fled Tennessee for Ohio before he was born when his father pistol-whipped a white neighbor who attacked one of his sons. In *Dancing with Strangers*, Watkins looks back upon his own life in the midst of the nation's roiling social currents during the tumultuous times when *Brown v. the Board of Education* and the civil rights movement took hold. Whether Watkins is writing about his combative father's furious, if sometimes misguided, struggles to exert his manhood, his parents' continuous, sometimes violent feuding, his much-admired brother in and out of jail and drug addiction, his entire life, his touching relationship with his grandmother whose stories inspired and transported him, or his own quest for identity through achievement within the sports and intellectual worlds, his prose soars.

Bridging Differences William B. Gudykunst, 2003-08-11 *Bridging Differences: Effective Intergroup Communication* is based on the assumption that the processes operating when we communicate with people from other groups are the same processes operating when we communicate with people from our own groups. Author William B. Gudykunst has written this book from the perspective of communicating with strangers and addresses how factors related to our group memberships, e.g., inaccurate and unfavorable stereotypes of members of other cultures and ethnic groups, can cause us to misinterpret the messages we receive from members of those groups. Designed for students taking courses in Intercultural Communication or Intergroup Communication, *Bridging Differences* is also useful for many courses in Cultural Studies, Anthropology, Sociology, and Management.

Keep Going Austin Kleon, 2019-04-02 The world is crazy. Creative work is hard. And nothing is getting any easier. In his previous books *Steal Like an Artist* and *Show Your Work*, New York Times bestsellers with over a million copies in print combined, Austin Kleon gave readers the key to unlock their creativity and then showed them how to share it. Now he completes his trilogy with his most inspiring work yet. *Keep Going* gives the reader life-changing, illustrated advice and encouragement on how to stay creative, focused, and true to yourself in the face of personal burnout or external distractions. Here is how to Build a Bliss Station, a place or fixed period where you can disconnect from the world. How to see that Every Day Is Groundhog Day.
