Contemporary Drama in English, 2000 **Resources in Education**, 2001 **Using Writing as a Process of Self-discovery in the Secondary English Classroom and Beyond** Elise Anne Nicoletti, 1993

Genre Theory Deborah Dean, 2008 Contemporary genre theory is probably not what you learned in college Its dynamic focus on writing as a social activity in response to a particular situation makes it a powerful tool for teaching practical skills and preparing students to write beyond the classroom Although genre is often viewed as simply a method for labeling different types of writing Deborah Dean argues that exploring genre theory can help teachers energize their classroom practices Genre Theory synthesizes theory and research about genres and provides applications that help teachers artfully address the challenges of teaching high school writing Knowledge of genre theory helps teachers challenge assumptions that good writing is always the same make important connections between reading and writing eliminate the writing product process dichotomy outline ways to write appropriately for any situation supply keys to understanding the unique requirements of testing situations and offer a sound foundation for multimedia instruction

First Time Up Brock Dethier, 2005 First time up an insider's friendly question from 1960s counter culture perfectly captures the spirit of this book A short supportive practical guide for the first time college composition instructor the book is upbeat wise but friendly casual but knowledgeable like the voice that may have introduced you to certain other firsts With an experiential focus rather than a theoretical one First Time Up will be a strong addition to the newcomer's professional library and a great candidate for the TA practicum reading list Dethier author of *The Composition Instructor's Survival Guide* and *From Dylan to Donne* directly addresses the common headaches nightmares and epiphanies of composition teaching especially the ones that face the new teacher And since legions of new college composition teachers are either graduate instructors TAs or adjuncts without a formal background in composition studies he assumes these folks as his primary audience Dethier's voice is casual but it conveys concern humor experience and reassurance to the first timer He addresses all major areas that graduate instructors

or new adjuncts in a writing program are sure to face from career anxiety to thoughts on grading and keeping good classroom records Dethier's own eclecticism is well represented here but he reviews with considerable deftness the value of contemporary scholarship to first time writing instructors many of whom will be impatient with high theory Throughout the work he affirms a humane confident approach to teaching along with a true affection for college students and for teachers just learning to deal with them
