Theory Into Practice:

Putting Theory into Practice in the Contemporary Classroom Becky McLaughlin, 2017-01-06 This collection of fourteen essays by scholars from Canada Europe the United Kingdom and the United States emerges from a growing interest in the ways postmodern theory can illuminate not just the products and ideas of high culture but also the ins and outs of everyday life Taking the university classroom broadly construed as a site of theoretical investigation this volume helps us to understand troublesome classroom dynamics as well as offering pedagogical strategies for dealing with them It also illuminates current pressures on higher education that find expression in the classroom As a forum for these issues these essays draw upon Deleuzian feminist Foucauldian and psychoanalytic approaches among others recognizing not only that these approaches are often in conflict but also that collectively they enhance our understanding of the classroom Important questions posed here include whether and if so how we can combine a Marxist or Foucauldian emphasis on the disciplinary and hegemonic practices of educational institutions with a Lacanian or Barthesian appreciation for the disruptive pleasures and drives that the unconscious produces within and through students teachers and classrooms Which theoretical and pedagogical innovations can help teachers and students to get the job done as well as to theorize the job to simultaneously practice education and imagine other forms and ends for education How can theory help us to historicize criticize and re draw the productive but sometimes disabling lines that make the classroom and its subjects A site for lively theoretical debate about these and related pedagogical issues this volume will prove useful for anyone wanting to reinterpret reinvent and reinvigorate the classroom Theory Into Practice ,1962 *Activity Theory in Practice* Harry Daniels, Anne Edwards, Yrjo Engeström, Tony Gallagher, Sten R.
