

# Stuart England

**Richard David Richards**

## Stuart England:

**Stuart England** Angus Stroud, 2002-01-31 *Stuart England* is an invaluable introduction to the political religious and social history of seventeenth century England It provides a wide ranging and lively account of core events drawing on both contemporary sources and the latest interpretations by modern historians Starting with the legacy of Elizabeth I and ending with the reign of William III and Mary Stuart England covers all aspects of the monarchy high and low politics and the culture of the people Key topics include English society and religion ideas of monarchy and government finance and parliament foreign policy With comprehensive questions and analysis exercises diagrams and maps *Stuart England* provides an excellent and indispensable guide to English history of the seventeenth century

**Stuart England 1603-1714** Barry Coward, 1997-08-12

**The Stuart Age** Barry Coward, Peter Gaunt, 2017 *The Stuart Age* is an accessible introduction to England's century of civil war and revolution The fifth edition has been updated to reflect new work and changing trends in research on the Stuart Age It expands on key areas including the early Stuart economic religious and social context key events and debates surrounding the English Civil War colonial expansion foreign policy and overseas wars throughout the Stuart period and significant developments in Scotland and Ireland A new opening chapter provides an overview of current historiographical trends in Stuart history A long standing favourite of lecturers and students this is essential reading for those studying Stuart Britain

**Historical Dictionary of Stuart England, 1603-1689** Ronald H. Fritze, William Baxter Robison, William B. Robison, 1996 Primary focus of coverage has been political and religious history although important cultural social economic and intellectual topics have been included

*Ambition and Failure in Stuart England* Ian Atherton, 1999 The Second World War and the German Occupation remain a major focal point in French culture and society with new and sometimes controversial titles published every year Ir ne N mirovsky's *Suite française* and Jonathan Littell's *Les Bienveillantes* both rapidly translated into English offer just two examples of this significant phenomenon Gathering within one volume studies of genres visual cultures chronology narrative theory and a wealth of narratives in fiction and film *Framing narratives of the Second World War and occupation in France 1939-2009* brings together an internationally distinguished group of contributors and offers an authoritative overview of criticism on war and occupation narratives in French a redefinition of the canon of texts and films to be studied and a vibrant demonstration of the richness of the work in this area Now available in paperback the book includes contributions by William Cloonan Richard J Golsan Leah Hewitt Colin Nettelbeck and Gis le Sapiro

*Historical Perspectives on Homosexuality* Salvatore J. Licata, Robert P. Petersen, 1981 *Historical Perspectives on Homosexuality* was written by a distinguished group of scholars under the editorial auspices of the *Journal of Homosexuality* and the Center for Homosexual Education Evaluation and Research at San Francisco State University It is the second volume of the monograph series *Research on Homosexuality*

*English Students at Leiden University, 1575-1650* Daniela Prögler, 2016-05-13 The oldest and most renowned Dutch university Leiden was an attractive

proposition for travelling foreign students in the seventeenth and eighteenth centuries. Alongside offering an excellent academic program and outstanding facilities, Leiden was also able to cater to the desires of noble students providing various extra-curricular activities. Leiden was the most popular continental university among English students and this book investigates the 831 English students who studied there between 1575 and 1650. The preference of English students for Leiden was on the one hand related to close Anglo-Dutch relations of the period and these are investigated with respect to politics, economy, religion, culture, as well as to the large stranger communities residing in the respective countries. On the other hand, Leiden's attraction resulted from its academic achievements which are traced back to the conditions in the United Provinces, the limited influence of the Calvinist Church, Leiden's professors, as well as the university's facilities. The core of this study is an exhaustive quantitative study of the composition of the Leiden student population in general and that of its English segment in particular. Information is provided on the duration of the studies of English students at Leiden, their age, social background, and fields of study. We learn about the careers of English students both prior to and after their time at Leiden and of the motivation that led the English to choose Leiden over other continental universities. More than a study of one group of students at one university, this book is a valuable contribution to the history of early modern universities and will appeal to a wide international readership interested in cultural and intellectual history as well as in Anglo-Dutch relations.

**Stuart England** John Philipps Kenyon, 1978

**London's News Press and the Thirty Years War** Jayne E. E. Boys, 2014. A topical subject offering interesting parallels between the news revolution in the age of James I and Charles I and our internet age. An important contribution to the history of print and books. London's News Press shows that seventeenth-century England was very much part of a European-wide news community. The book presents a new print history that looks across Europe and the interconnecting political and religious groups with international networks. It tells the story of the printers and publishers engaged in the earliest illicit publications, their sources and connections in Germany as well as the Netherlands and traces the way legitimacy was achieved. These were the earliest printed periodical news publications. Periodicity and its implications for trade and customers is explored as well as the roles of publishers and editors. The period saw a much bigger circulation of news than had ever been experienced before. The book also describes the lively nature of relationships that ensued between news networkers, editors, writers, and readers along their interconnecting chains. The subject is topical. Our understanding of reading and communications is undergoing major changes with the rise and proliferation of social media. James I and Charles I faced new media and an unprecedented growth in informed public opinion fuelled by a flow of information that was essentially beyond the reach of government control. So there are parallels with the contemporary struggle to adapt and there is a corresponding growth in the publication of history books reflecting upon the origins of the public sphere and the development of public opinion.

JAYNE E. E. BOYS is an independent scholar who lives in Suffolk and British Columbia.

**The Causes of the English Civil War** Ann Hughes, 1998-12-14. This book is intended as a

guide and introduction to recent scholarship on the causes of the English civil war It examines English developments in a broader British and European context and explores current debates on the nature of the political process and the divisions over religion and politics It then analyses renewed attempts to set the civil war in a social context and to connect social change to broad cultural cleavages in England The author also provides her own positive interpretation which takes account of the valuable insights of revisionist approaches but concludes that long term ideological divisions and tensions arising from social change were crucial in causing the civil war

**Evangelicals and Science in Historical Perspective** David N. Livingstone, Darryl G. Hart, Mark A. Noll, 1999 Comprising papers by such distinguished scholars as John Headley Brooke James R Moore Ronald Numbers and George Marsden this collection shows that questions of science have been central to evangelical history in the United States as well as in Britain and Canada

*The Guitar in Stuart England* Christopher Page, 2017-11-16 This is the first history of the guitar during the reign of the Stuarts a time of great political and social upheaval in England In this engaging and original volume Christopher Page gathers a rich array of portraits literary works and other previously unpublished archival materials in order to create a comprehensive picture of the guitar from its early appearances in Jacobean records through its heyday at the Restoration court in Whitehall to its decline in the first decades of the eighteenth century The book explores the passion of Charles II himself for the guitar and that of Samuel Pepys who commissioned the largest repertoire of guitar accompanied song to survive from baroque Europe Written in Page's characteristically approachable style this volume will appeal to general readers as well as to music historians and guitar specialists

**The Early History of Banking in England** Richard David Richards, 1929

Culture and Politics in Early Stuart England Kevin Sharpe, 1993 In recent years new schools of historiography and criticism have recast the political and cultural histories of Elizabethan and early Stuart England However for all the benefits of their insights most revisionist historians have too narrowly focussed on high politics to the neglect of values and ideology and New Historicist literary scholars have displayed an insufficient grasp of chronology and historical context The contributors to this pioneering volume richly fusing these approaches apply a revisionist close attention to moments to the wide range of texts verbal and visual that critics have begun to read as representations of power and politics Excitingly broadening the range of areas and evidence for the study of politics these outstanding essays demonstrate how the study of high culture classical translations court portraits royal palaces the conduct of chivalric ceremony and low culture cheap pamphlets and scurrilous verses enable us to reconstruct the languages through which contemporaries interpreted their political environment The volume posits a reconsideration of the traditional antithetical concepts court and country verbal and visual critical and complimentary elite and popular examines the constructions of a moral and social order enacted in a wide variety of cultural practices and demonstrates how common vocabularies could in changed circumstances be combined and deployed to sustain quite different ideological positions This book opens a new agenda for the study of the politics of culture and the culture of politics

in early modern England Publisher s website **Social Life in Stuart England** Mary Coate,1925 *Daily Life in Stuart England* Jeffrey L. Forgeng,2007-03-30 England witnessed an overall rising standard of living in the seventeenth century Still very much an agrarian society approximately 80% of the population lived in rural settlements and even citydwellers were in walking distance of farmland However as the the century came to an end a growing proportion of the population was living in urban areas London in particular grew from some 200 000 people in 1600 to 575 000 by 1700 and went from being the 3rd largest city in Europe to the largest Homes were larger than previously and the wealth of a family could be determined by how many fireplaces were in the home Clothing was another important facet of Stuart culture and not only protected the wearer against the elements but was a statement of their position in society Clothing and homes weren t the only marker of social status even sports and games were often divided along class lines many in the lower classes played football while the upper classes were consumed with billiards Forgeng brings life in Stuart England alive for students and general readers alike Chapters devoted to the course of life and cycles of time the living environment clothing and accoutrements food and drink and entertainments detail the day to day lives of those living in Stuart England while the role of women religion science and technology the military and trade and economy are also explored Greenwood s Daily Life through History series looks at the everyday lives of common people This book will illuminate the lives of those living in Stuart England and provide a basis for further research Black and white photographs maps and charts are interspersed throughout the text to assist readers Reference features include a timeline of historic events sources for further reading glossary of terms bibliography and index

**Stuart Britain: A Very Short Introduction** John Morrill,2000-08-10 First published as part of the best selling The Oxford Illustrated History of Britain John Morrill s Very Short Introduction to Stuart Britain shows how in the Stuart century a century of Revolution political religious social and economic changes came together **A Political History of Tudor and Stuart England** Victor Stater,2005-06-29 A Political History of Tudor and Stuart England draws together a fascinating selection of sources to illuminate this turbulent era of English history From the bloody overthrow of Richard III in 1485 to the creation of a worldwide imperial state under Queen Anne these sources illustrate England s difficult transition from the medieval to the modern Covering a period characterised by conflict and division this wide ranging single volume collection presents the accounts of Yorkists and Lancastrians Protestants and Catholics and Roundheads and Cavaliers side by side A Political History of Tudor and Stuart England provides a crucial opportunity for students to examine the institutions and events that moulded English history in the early modern era at first hand [The United States Catalog](#) ,1925 [Life in Stuart England](#) Maurice Ashley,1964 Panorama of seventeenth century British society
