Ebert, 2014-05-19 Congratulations to Ken Perlin for his 1997 Technical Achievement Award from the Academy of Motion Picture Arts and Science Board of Governors given in recognition of the development of Turbulence Perlin Noise a technique discussed in this book which is used to produce natural appearing textures on computer generated surfaces for motion picture visual effects Dr Perlin joins Darwyn Peachey co developer of RenderMan R also discussed in the book in being honored with this prestigious award Written at a usable level by the developers of the techniques Serves as a source book for those writing rendering systems shaders and animations Discusses the design and implementation of noise functions Contains procedural modeling of gases hypertextures mountains and landscapes Provides a toolbox of specific procedures and basic primitive functions for producing realistic images Procedures are presented in C code segments or in Renderman shading language 3 5 disk contains the code from within the book for easy implementation

Modeling in Computer Graphics Bianca Falcidieno, Tosiyasu L. Kunii, 2012-12-06 In the history of technology many fields have passed from an initial stage of empirical recipes to a mature stage where work is based on formal theories and procedures This transition is made possible through a process called modeling Also Computer Graphics as a separate field of Computer Science makes extensive use of formal theories and procedures of modeling often derived from related disciplines such as mathematics and physics Modeling makes different application results consistent unifying varieties of techniques and formal approaches into a smaller number of models by generalizing and abstracting the knowledge in Computer Graphics This volume presents a selection of research papers submitted to the conference Modeling in Computer Graphics Methods and Applications held at the Research Area of the National Research Council in Genoa Italy on June 28 July 1 1993 This meeting was the ideal continuation of a previous conference organized in Tokyo Japan in April 1991 The success and the variety of research themes discussed at that meeting suggested to promote a new working conference on methods and applications of modeling to be held in Italy two years later
