

Street Design Review Process

Background

The Street Design Section reviews street and subdivision plats submitted to the City of Columbus by consulting engineers for compliance with city specifications and requirements.

Street plans will include streets, water mains, storm sewer systems and street lighting systems.

Why might you use the street design review process?

To construct streets, approval will be needed from the Street Design Section as well as other divisions. Proper specifications must be followed in order to dedicate the street to the city.

Where do you initiate the street design review process?

Public Service Department
Engineering Division
109 North Front Street 3rd Floor Room 350
Columbus, Ohio 43215
Monday-Friday
Hours: 8:00 a.m.—5:00 p.m.

What information do you need to provide?

The following information should be included upon application to the Street Design Section:

- Signature block
- General notes
- Typical street sections
- Vertical control-benchmarks
- Engineer's signature and seal
- Quantities-pavement, storm sewer, water mains and street lights

- List of City of Columbus Standard Drawings used
- Plans and profile sheets
- Index map—1"=200"—scale map of project
- Location map
- Profiles of streets, storm sewer and water mains
- Details, if needed

Who else may be involved in the street design review process?

Public Utilities Department, Divisions of Water, Electricity and Sewerage and Drainage
Public Safety Department, Fire Prevention Division
Public Service Department, Traffic Engineering Division
Private utilities

How does the street design review process work?

See Chart H

How much time is involved in the street design review process?

Three weeks usually elapse from the time checked prints are distributed to the appropriate divisions until they are returned to the Street Design section for a two to four day review and back check.

How much does the street design review process cost?

The fee for street design review is determined at the time the street improvement agreement papers are delivered to the City Engineer's Office. Payment by the developer is requested upon receipt of the agreement papers.

 the Industrial Revolution Now that much post war planning philosophy is being discredited we are left with few urban models
 other than garden city inspired suburbia Are these appropriate in the 21st century given environmental concerns
 demographic change social and economic pressures The authors suggest that these trends point to a very different urban
 future If the 19th century home was the terrace and the 20th century was the suburban semi what will be the 21st century
 home In the 21st century it is likely that a change will take place in the way that we build our towns and cities as dramatic as
 that brought about by the garden city pioneers a hundred years ago Change should not however be brought about by
 regulation or by forcing people against their will to return to towns and cities Instead this book argues that we must reform
 our towns and cities so that they become attractive humane places where people will choose to live The Sustainable Urban
 Neighbourhood is a model for such reform and the book describes what this would look like and how it might be brought
