**The African American Experience in Crime Fiction** Robert E. Crafton, 2015-06-08 An immensely popular genre crime fiction has only in recent years been engaged significantly by African American authors. Historically the racist stereotypes often central to crime fiction and the socially conservative nature of the genre presented problems for writing the black experience and the tropes of justice and restoration of social order have not resonated with authors who saw social justice as a work in progress. Some African American authors did take up the challenge. Pauline Hopkins, Rudolph Fisher, and Chester Himes led the way in the first half of the 20th century, followed by Ishmael Reed's anti-detective novels in the 1970s. Since the 1990s, Walter Mosley, Colson Whitehead, and Stephen L. Carter have written detective fiction focusing on questions of constitutional law, civil rights, biological and medical issues, education, popular culture, the criminal justice system, and matters of social justice. From Hopkins's *Hagar's Daughter* published in 1901 to Himes's hardboiled Harlem Detective series to Carter's patrician world of the black bourgeoisie, these authors provide a means of examining literary and social constructions of the African American experience.

Lucy is surprised when Marc tells her of his promotion, the dream of a lifetime for him. She ponders his decision and, against her better judgment, agrees to move to Maine. This decision proves to be the blessing that they had prayed for: they have their dream home, dream job, and dream family. But as always happens with good times, there must be bad times to balance the equation. She loses her dad and is about to lose her mother to a dreadful disease. She also suffers from debilitating losses of consciousness and is hospitalized for a short period of time as the doctors determine the prognosis, which is in her favor. She will be just fine. During the time of settling in, the Winston family makes many adjustments to their newfound life in the Northeast. Life for this family is good with their future brighter than ever.

**Jimmy Carter** Anne E. Schraff, 1998 Jimmy Carter, from Plains, Georgia, a graduate of the Naval Academy, was President for one term. A peanut farmer when he became governor of Georgia, he promoted racial integration during his terms in the state house as well as in the White House. Carter's foreign policy introduced the concept of human rights around the world, and he signed the SALT treaty with the Soviet Union, reducing the numbers of nuclear weapons. Although Carter made progress towards peace between Arabs and Israelis in the Middle East, his administration was undone by the taking of American hostages in Iran. As an ex-president, Carter continues to be active promoting peace internationally.

**The Subject of Race in American Science Fiction** Sharon DeGraw, 2006-12-19 While the connections between science fiction and race have largely been neglected by scholars racial identity is a key element of the subjectivity constructed in American SF In his Mars series Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism Writing in the 1930s George S Schuyler revised Burroughs normative SF triangle of white author white audience and white protagonist and promoted an individualistic highly variable concept of race instead While both Burroughs and Schuyler wrote SF focusing on racial identity the largely separate genres of science fiction and African American literature prevented the similarities between the two authors from being adequately acknowledged and explored Beginning in the 1960s Samuel R Delany more fully joined SF and African American literature Delany expands on Schuyler's racial constructionist approach to identity including gender and sexuality in addition to race Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature Connecting the popular fiction of Burroughs the controversial career of Schuyler and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today
