

Chaos

**why why, when when
does the pain ever stop
or the chaos give in?**

**where do you go
how do you hide
from what you know
is deep inside?**

**running this way and that
uncertain of where you're at
put on a face, a play, an act
wondering exactly what you lack**

**blending in with the masses
if not, hide or cause clashes
not meaning to by being you
pondering and wandering along the axes**

**of society, notoriety, and fame
contemplating the smear and the shame
of standing upright day and night
doing what you know is absolutely right**

**don't give in because they'll destroy
all that is good, pure, full of joy
tugging, pulling, dragging you down
deep into the abyss where they can be found**

Chaos Mark Brayley, 2020-10-05 American Yiddish Poetry Barbara Harshav, Benjamin Harshav, 2023-09-01 This book introduces a collection of twentieth century American poetry written in Yiddish aiming to bring this rich cultural and literary heritage to a broader audience It is designed not only for those who understand Yiddish but for all readers of poetry literature and history who seek to discover new themes and texts Yiddish poetry with its roots in cities like New York Chicago Tel Aviv and Vilna engages with major Modernist trends while creating its own unique poetic world The collection emphasizes that despite the language barrier the human topics and artistic achievements of Yiddish poetry are an essential part of global cultural heritage The challenge of conveying the essence of Yiddish poetry to readers unfamiliar with the language is significant but this anthology provides translated works that aim to preserve the original s meaning and poetic form The editors through daily collaboration and the support of several translators and experts have crafted translations that offer a glimpse into the powerful imagery and themes of Yiddish verse By incorporating insights from both poetry and visual art this volume positions Yiddish poetry within the broader landscape of twentieth century American cultural expression ensuring its place in the literary canon This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986 American Yiddish Poetry Benjamin Harshav, Barbara Harshav, 2007 This remarkable volume introduces what is probably the most coherent segment of twentieth century American literature not written in English Includes a bilingual facing page format notes and biographies of poets and selections from Yiddish theory and criticism **The Chaos** Mala R M Kulpurna, 2023-04-14 The words expressed in poems that sometimes we choose not to say out loud to our people when we hesitate because we wonder if those words carry any impact in our lives in our relationships **The Poetry of Raymond Carver** Professor Sandra Lee Kleppe, 2014-04-28 Best known as one of the great short story writers of the twentieth century Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer Sandra Lee Kleppe combines comparative analysis with an

in depth examination of Carver s poems making a case for the quality of Carver s poetic output and showing the central role Carver s pursuit of poetry played in his career as a writer Carver constructed his own organic literary system of autopoetics a concept connected to a paradigm shift in our understanding of the inter relatedness of biological and cultural systems This idea is seen as informing Carver s entire production and a distinguishing feature of Kleppe s book is its contextualization of Carver s poetry within the complex literary and scientific systems that influenced his development as a writer Kleppe addresses the common themes and intertextual links between Carver s poetry and short story careers situates Carver s poetry within the love poem tradition explores the connections between neurology and poetic memories and examines Carver s use of the elegy genre within the context of his terminal illness Tellingly Carver s poetry which has aroused slight interest among literary scholars is frequently taught to medical students This testimony to the interdisciplinary implications of Carver s work suggests the appropriateness of Kleppe s culminating discussion of Carver s work as a bridge between the fields of literature and medicine
