American History Goes to the Movies W. Bryan Rommel Ruiz,2011-01-26 Whether they prefer blockbusters historical dramas or documentaries people learn much of what they know about history from the movies In American History Goes to the Movies W. Bryan Rommel Ruiz shows how popular representations of historic events shape the way audiences understand the history of the United States including American representations of race and gender and stories of immigration especially the familiar narrative of the American Dream Using films from many different genres American History Goes to the Movies draws together movies that depict the Civil War the Wild West the assassination of JFK and the events of 9 11 from The Birth of a Nation and Gone with the Wind to The Exorcist and United 93 to show how viewers use movies to make sense of the past addressing not only how we render history for popular enjoyment but also how Hollywood's renderings of America influence the way Americans see themselves and how they make sense of the world

Communities of Women in Assam Nandana Dutta,2015-12-22 This book uses communities of women as a framework for reading women's experience rights and aspirations in Assam and Northeast India It explores the varying roles played by such communities in the formation of society

the emergence of a women's public sphere and the representation of these communities in culture. The essays in the volume study a host of women's communities including the Mahila Samiti, Jain women's organisations, Lekhika Sanstha, lesbian communities, religious gatherings, scientific and environmental groups, women's collaborations through cookbooks, as well as nebulous communities of victims of persecution. They examine how women's communities are both empowering and transformational but may paradoxically also be regressive and static. Lucid, analytical and rich with case studies, this volume will be useful to scholars and researchers of gender studies, sociology, political science, history and cultural studies, particularly those interested in Northeast India.

Strange Histories Darren Oldridge, 2004-08-02. *Strange Histories* presents a serious account of some of the most extraordinary occurrences of European and North American history and explains how they made sense to people living at the time. Using case studies from the Middle Ages and the early modern period, this book provides fascinating insights into the world view of a vanished age and shows how such occurrences fitted in quite naturally with the common sense of the time. Explanations of these phenomena, riveting and ultimately rational, encourage further reflection on what shapes our beliefs today. What made reasonable, educated men and women behave in ways that seem utterly nonsensical to us today? This question and many more are answered in this fascinating book.

The Workaday Readers Clarence Truman Gray, 1929. **Elizabeth Gaskell's Smaller Stories** Carolyn Lambert, 2021-08-26. This book re-locates Elizabeth Gaskell's smaller stories in the literary and cultural context of the nineteenth century. While Gaskell is recognised as one of the major novelists of her time, the short stories that make up a large proportion of her published work have not yet received the critical attention they deserve. This study re-claims them as an indispensable part of her literary output that enables us to better contextualize and assess her achievement holistically as a highly skilled woman of letters. The periodicals in which Gaskell's shorter pieces were published offer a microcosm of nineteenth-century society and Gaskell took full advantage of the medium to apply a consistent and barbed challenge to cultural and gendered constructs of roles and social behaviour. Although her eminently readable prose still flows easily in her short stories, it is less likely to elide the sharp corners of domestic violence, the disabling experiences of women, the pain of death and loss, and the complications of family life.

The Reader's Digest De Witt Wallace, Lila Acheson Wallace, 1928. **The History on Film Reader** Marnie Hughes-Warrington, 2009. Offers readers an introduction to just under 30 critical and representative writings on the relationship between film and history. These writings represent a combination of insights from film theory, cultural studies, historiography, the history of cinema, and film promotion and reception.
