Being Missional, Becoming Missional Banseok Cho, 2021-12-10 This book explores the theme of the missional conversion of the church namely how the church is transformed toward its missionary vocation from a biblical theological perspective The purpose of this book is to find biblically grounded theologically sound and practically applicable principles helpful for the church which seeks to be continuously shaped into a missional community which authentically and fully participates in God's mission today The biblical theological findings on how the triune God in the biblical narrative shapes the people of God toward their missionary vocation demonstrates first that in Scripture the missional conversion of the church is primarily the consequence of its continuous encounter with the triune God and second that this divine human encounter for the missional conversion of the church is ineluctable in view of the ongoing tension between the missional faithfulness of God in fulfilling the missionary vocation of the church on the one hand and the missional failure of the church in its missionary vocation on the other hand

*Invading the Realm of Demons, Disease, and Death* Carl E. Roemer,2024-01-29 This study of the miracles attributed to Jesus in the Gospels begins with a survey of the sciences because in our present cultural context materialism is the dominant approach to and understanding of our world of history and of our very selves If the materialist s understanding is true then there is no such thing as miracles because every event must occur as the result of some previous material events Contemporary biblical scholarship mostly approaches the miracle stories from a materialist point of view It questions their historicity because they violate what has now become the entrenched modus operandi in our

culture and society operating with the idea that the universe is a closed nexus of cause and effect The miracles are understood then as products of the community and not historical reports although according to this line of scholarship they may be based on some vague recollection of Jesus s activity that somehow had healing effects Modern science however as one scientist has put it in climbing the mountain of knowledge has reached its peak and found a theologian at the top The sciences in other words have led to the implication that our universe has a creator and that the universe and the human genome have been designed
