Very Private Life:

A Very Private Celebrity Hugh Purcell, 2015-07-07 John Freeman was one of Britain's most extraordinary public figures for over half a century a renaissance man who constantly reinvented himself a household name who sought complete anonymity From advertising executive to war hero to MP tipped to be Prime Minister Freeman then changed direction to become a seminal television interviewer and editor of the *New Statesman* He subsequently remodelled himself yet again to become in turn an ambassador a TV mogul a university professor and finally in retirement a well known bowls player in south London Freeman packed nine lives into his ninety nine years but all he really wanted was to be forgotten The paradox of this private celebrity was captured by the very series that made him famous *Face to Face* While Freeman remorselessly interrogated the stars of his age he himself sat in the shadows his back to the camera He was the grand inquisitor exposing the personalities behind the public figures but never his own For ten years Hugh Purcell has been tracking Freeman's story trying to come face to face with this enigma who believed in changing his life and his wife every ten years Why did Freeman want to forget what most old men would be proud to remember Why did he try to erase himself from history And yet despite Freeman's best efforts to be ignored his death in 2014 was marked by an enormous outpouring of appreciation and admiration With his life now free from its shroud of inscrutability the true story of this incredibly multifaceted man can finally be told

Soviet Cinematography, 1918-1991 Michael R. Greenberg, Dmitry Shlapentokh, 2021-12-24 With a historical sweep that recent events have made definitive the authors examine the influence of Soviet ideology on the presentation of social reality in films produced in the Soviet Union between the October Revolution and the final days of glasnost Within the framework of an introduction that lays out the conceptual terminology used to describe that shifting ideological landscape the authors analyze both the social groups appearing in the films and the relations of film directors and other film makers to state censorship and ideological control

Reconstructing Social Justice Laretta Conklin Frederking, 2013-11-12 The rhetoric of social justice is commonplace but increasingly it means little more than a tag line or a punctuation point *Reconstructing Social Justice* presents a new framework for social justice that will change the way people think about social justice and change the way people implement social justice This book carves out an intellectual and practical space for social justice that is distinct from political legal and economic spheres While emphasizing a distinct domain for social justice the author then makes sense of its healing role in terms of the polity economy technology and religion Drawing from a rich supply of classroom experiences her research on mosque controversies after September 11 2001 and then the global examples of truth and reconciliation commissions Frederking invites the reader to think about the relevance of social justice from the micro to the macro level Rather than a set of policy outcomes or ideological positions social justice is a process of social accountability that demands honest and transparent engagement While disagreement is likely and controversy inevitable this social justice process reaffirms our connectedness and moves us forward as a collective
