Where They Lay:

Where They Lay Earl Swift, 2005-07-07 Where They Lay melds an account of an elite military team's high tech high risk search for a Vietnam War pilot's remains with a remarkably immediate and poignant retelling of his final intense hours in far flung rain forests and its futuristic lab near Pearl Harbor the Central Identification Laboratory CILHI strives to recover and identify the bodies of fighting men who never came home from America's wars Its mission combines old fashioned bushwhacking and detective work with the latest in forensic technology Earl Swift accompanies a CILHI team into the Laotian jungle on a search for the remains of Major Jack Barker and his three man crew whose chopper went down in a fireball more than thirty years ago He interweaves the story of the recovery team's work with a tense account of Barker's fatal attempt to rescue trapped soldiers during the largest helicopter assault in history Swift is the first reporter ever allowed to follow a recovery mission as these unique archaeological digs are called in its entirety and he got his hands dirty combing the jungle floor for clues amid vipers monsoons and unexploded bombs Where They Lay resounds with admiration for those who fell and those who seek them But Swift also raises hard questions about these recovery missions Is it worth 100 million a year to try to bring home the lost from old wars Is it worth the lives of today's soldiers Seven Americans died in the line of duty just months before Swift went in country And is the effort compromised by the corruption among native officials overseeing missions in their countries As new conflicts draw our attention Where They Lay throws brilliant light on war's cost to soldiers and to those they leave at home
