Eclipses F. E. Close, 2019 Have you ever seen a total solar eclipse If the question caused you to search your memory the correct answer would have been no A common response is Yes I saw one it was about 90% partial eclipse where I lived A 90% partial eclipse is indeed a remarkable phenomenon but true totality leaves all else in the shade in all senses of the phrase Ask the question of anyone who has experienced the full sensation of being obliterated by the moon's shadow and they will reply yes without hesitation and continue with a monologue describing the overwhelming experiences and unique phenomena that ensued On 21 August 2017 millions of people across the United States witnessed The Great American Eclipse of the Sun The moment it was over people around the world were asking questions what caused the weird shadows and colors in the build up to totality Were those ephemeral bands of shadows gliding across the ground in the seconds before totality real or an optical illusion Why this what that but above all where and when can I see a total solar eclipse again Eclipses What Everyone Needs to Know helps explain the profound differences between a 99.99% partial eclipse and true totality and inform readers how to experience this most beautiful natural phenomenon successfully It covers eclipses of sun moon and other astronomical objects and their applications in science as well as their role in history literature and myth It describes the phenomena to expect at a solar eclipse and the best ways to record them by camera video or by simple handmade experiments The book covers the timetable of upcoming eclipses where the best locations will be to see them and the opportunities for using them as vehicles for inspiration and education As a veteran of seven total solar eclipses physicist Frank Close is an expert both on the theory and practice of eclipses Eclipses What Everyone Needs to Know is a popular source of information on the physics of eclipses
