The Long Goodbye Meghan O'Rourke,2011-04-14

Anguished beautifully written The Long Goodbye is an elegiac depiction of drama as old as life The New York Times Book Review From one of America s foremost young literary voices a transcendent portrait of the unbearable anguish of grief and the enduring power of familial love What does it mean to mourn today in a culture that has largely set aside rituals that acknowledge grief After her mother died of cancer at the age of fifty five Meghan O Rourke found that nothing had prepared her for the intensity of her sorrow In the first anguished days she began to create a record of her interior life as a mourner trying to capture the paradox of grief its monumental agony and microscopic intimacies an endeavor that ultimately bloomed into a profound look at how caring for her mother during her illness changed and strengthened their bond O Rourke s story is one of a life gone off the rails of how watching her mother s illness and separating from her husband left her fundamentally altered But it is also one of resilience as she observes her family persevere even in the face of immeasurable loss With lyricism and unswerving candor The Long Goodbye conveys the fleeting moments of joy that make up a life and the way memory can lead us out of the jagged darkness of loss Effortlessly blending research and reflection the personal and the universal it is not only an exceptional memoir but a necessary one

Screenwriters José Guilherme Correa, 2016-07-13 Screen writing is a unique literary form. Screenplays are like musical scores in that they are intended to be interpreted on the basis of other artists' performances rather than serving as finished products for the enjoyment of their readers. They are written using technical jargon and tight spare prose to describe set directions. Unlike a novella, a script focuses on describing the literal visual aspects of the story rather than on its characters' internal thoughts. In screen writing, the aim is to evoke those thoughts and emotions through subtext, action, and symbolism. Prominent Hollywood script doctors include Steve Zaillian, William Goldman, Robert Towne, Mort Nathan, Quentin Tarantino, etc., while many up-and-coming screenwriters work as ghostwriters. This book is a modest catalogue of some of the most prominent screenwriters listed from A to Z. The good are sometimes bad, and they can be even ugly. Many comments herein included were googled in deference to the multiplicity of information available today, yet they reflect exactly or almost what I thought. An amazing thing today is how anonymous commentators on the Internet rival and even surpass the poor quality of professional media and specialised literature. It all comes down to watching the truth 24 times per second, to quote Jean-Luc Godard's phrase. Not to mention that such truth may include sex scenes, violence, pedophilia, etc. We know that a literary masterpiece like Henry James' *Portrait of a Lady* became a film of very poor quality as scripted by Laura Jones. We know conversely that a mediocre writer like Mickey Spillane inspired at least one film as remarkable as *Kiss Me Deadly*, thanks to A.I. Bezzerides' script. As a former screenwriter, Mr. Correa must avow that he found the job most gratifying. Writing that looks effortless is often hellish to write and revise. It was something he did have to slog through, but it proved particularly pleasing. Editing, discussing, finishing your work is particularly gratifying. Identifying your flaws and working to mitigate them is also gratifying. It is a general perception that creative careers are more interesting and fun than others. But the privilege of earning money through imagination and creativity is effectively hard-won. Please comment at will. Please disagree at will. Be facetious in your remarks, but please be neither vicious nor mean-spirited.

The Cambridge Companion to American Novelists Timothy Parrish, 2013 This volume provides newly commissioned essays from leading scholars and critics on the social and cultural history of the novel in America. It explores the work of the most influential American novelists of the past 200 years, including Melville, Twain, James, Wharton, Cather, Faulkner, Ellison, Pynchon, and Morrison.
