This Is Fascinating:

History Is Fascinating Homer Adams, 2008-09 Prolific author Homer J Adams whose previously published books included suggestions for college students and wisdom for senior citizens now takes on a much larger and more difficult subject history People don't automatically like history writes the author but they love a good story History is a story or rather a collection of stories about people and how they lived and loved These accounts are shot through with humor and human interest which for too long has been minimized in the study of history In his new offering History Is Fascinating And I Can Prove It Mr Adams's selections are rich in colorful anecdotes and vivid imagery He is also a talented storyteller with a love for creating distinct character portrayals that readers can easily embrace Therein lies the readability of these historical references readers will easily absorb the storyline while becoming enchanted with the story itself and its characters For instance in the World History section there are engaging vignettes on Queen Elizabeth's Toothache Columbus and the Moon's Eclipse and Galileo Elsewhere the section on the Nineteenth Century includes Dirty Politics 1824 and Yankee Inventiveness while the Current Century section includes an homage to the victims of Hurricane Katrina I hope that these brief historical accounts writes Mr Adams will add to the reader's knowledge of past events and the way people lived Book jacket **Wow!**

Beatrice A Golomb,Guang G Gong,Alfred W Hales,2023-07-07 Solomon Wolf Golomb left an unparalleled legacy of
accomplishment and recognition for his work in the applications of mathematics to coding and communication theory His
legacy also includes a host of individuals whose lives and careers were immeasurably enriched by their interactions with him
The co editors have attempted to collect many articles essays in this volume of a not too technical sort by a representative
collection of such individuals Among their motivations is the wish to convince the reader of the incredibly prescient choice of
his given name The first section consists of three articles which have already appeared elsewhere by noted experts in the
fields where the majority of Sol s contributions lie mathematics computer science and electrical engineering The second
section consists of three articles by the co editors in memory of and tribute to Sol The third section contains 25 30 articles by
Sol s family friends students colleagues etc They cover a great range of topics and vary widely in length technicality and
other aspects In the last section are contributions by Sol himself covering various aspects of his career and interests as well
as other related material **The Spectator** ,1897 **Our Own English Bible** William James Heaton,1905 Dimensions
of Normativity David Plunkett,Scott J. Shapiro,Kevin Toh,2019-01-10 Understood one way the branch of contemporary
philosophical ethics that goes by the label metaethics concerns certain second order questions about ethics questions not in
ethics but rather ones about our thought and talk about ethics and how the ethical facts insofar as there are any fit into
reality Analogously the branch of contemporary philosophy of law that is often called general jurisprudence deals with
certain second order questions about law questions not in the law but rather ones about our thought and talk about the law
and how legal facts insofar as there are any fit into reality Put more roughly and using an alternative spatial metaphor
metaethics concerns a range of foundational questions about ethics whereas general jurisprudence concerns analogous
questions about law As these characterizations suggest the two sub disciplines have much in common and could be thought
to run parallel to each other Yet the connections between the two are currently mostly ignored by philosophers or at least
under scrutinized The new essays collected in this book are aimed at changing this state of affairs Dimensions of Normativity
collects together works by metaethicists and legal philosophers that address a number of issues that are of common interest
with the goal of accomplishing a new rapprochement between the two sub disciplines *The Dial* ,1914 *Godey's Lady's*
