## **Thorne Moors:**

**Thorne Moors** Catherine Caufield,1991-01 Although not an area of outstanding beauty Thorne Moors a raised peat bog on the Licolnshire Yorkshire border is home to more than 4000 species of plants and animals including more than 25 of Britain s rarest and most severely endangered species Much of the moor was drained by the Dutch in the 17th century and in more recent times has been considered as a site for dumping ash from power stations and debris from mine workings and was even a potential site for an airport All this has happened even though the area was listed in 1970 as an area of Special Scientific Interest It now belongs to Fisons who are extracting the remaining peat *Future Nature* W.M. Adams,2004-04-26 The countryside is changing faster than ever Fifty years of conservation achievements in the UK are now being confronted by a new complexion of economic forces that are driving change in the countryside At the same time new ideas in conservation are altering the role that conservation is being asked to play in negotiating the transition from past to future This revised edition of Bill Adams classic work *Future Nature* tackles the new challenges in the countryside and wildlife conservation head on through a new Introduction and Postscript with updated arguments about naturalness and our social engagement with nature and complemented by a new Foreword by Adrian Phillips Concepts such as biodiversity and sustainability and changes in our understanding appreciation and concern for nature offer unprecedented opportunities Bill Adams explores the scientific cultural and economic significance of conservation He argues that conservation must move beyond the boundaries of parks and reserves to embrace the whole countryside The importance of conservation for the future is enormous It holds the potential to create new spaces for nature both in the landscape and in our lives and imaginations This factual beautifully written and thought provoking book offers a fundamental reassessment of conservation its importance and how to achieve it Published with BANC **The Peatlands of Britain and Ireland** Clifton Bain,2022-02-02 Clifton Bain now completes his trilogy with this look at the Peatlands of Britain and Ireland A source of fuel for many generations they are now a haven for wildlife and plants as well as a storehouse of greenhouse gasses Their social history is one of exploitation and the value of mending and restoring is a major theme of the book Like its predecessors *The Peatlands of Britain and Ireland* will be a sumptuous volume richly illustrated with photographs and with drawings by the wildlife artist Darren Rees **Rothschild's Reserves: Time and Fragile Nature** Miriam Rothschild,Peter Marren,2023-08-14 The somewhat enigmatic title of this book by one of Britain s most distinguished scientists in collaboration with a highly respected natural history writer belies the arresting nature of its content Eighty years ago Miriam Rothschild s father Charles Rothschild said by some to have been the inventor of nature conservation in Britain first proposed the establishment of a network of 280 national nature reserves throughout the country to preserve the cream of its wildlife habitats a monumental task In this book she and her co author discuss the efforts that went into the selection of these reserves and compare the state then and now of 182 of the English sites and their wildlife depressing reading in many cases The authors

hope to spur everyone interested in the survival of the British countryside to take remedial action to safeguard it before it is too late Published by Balaban in association with Harley Books now Apollo Books who are sole UK and European distributors

Yorkshire's Forgotten Fenlands Ian D. Rotherham,2010-11-22 Yorkshire Forgotten Fens is a history of the cultural landscape of the wetlands of the Humber basin and the entire county of Yorkshire stretching from the Humber and north Lincolnshire through the Vale of York through South Yorkshire and Holderness to Pickering and beyond The book draws together the story of a changing landscape the lost cultures and ways of life and the wildlife that has gone too With the final chapter closing on the new wet fenland landscapes which are now emerging and presenting current visions and challenges for these truly evocative of landscapes this is a book based on our past but with a vision for the future The book is profusely illustrated with maps photographs paintings and extracts from historic documents **A History of the South Yorkshire Countryside** David Hey,2015-05-30 A look at how our ancestors shaped the South Yorkshire human landscape over the centuries from the author of *The Grass Roots of English History* South Yorkshire has some of the most varied countryside in England ranging from the Pennine moors and the wooded hills and valleys in the west to the estate villages on the magnesian limestone escarpment and the lowlands in the east Each of these different landscapes has been shaped by human activities over the centuries This book tells the story of how the present landscape was created It looks at buildings fields woods and moorland navigable rivers and industrial remains and the intriguing place names that are associated with them *Thorne Moors, Birds and Man* Martin Limbert,Roger D.
