The Key Codes of Fu Hsi & King Wen John C. Compton,2022-08-19 This book contains a series of research notes and graphical illustrations selected from the author s amazing research work It shows how The Sixty Four hexagrams were derived by using combinatory trigrams selected from the Earlier Heaven and Later Heaven trigram cyclic sequences The legendary authors of the I Ching known as Fu Hsi and King Wen used Key Coded Matrices which enabled them to change the hexagrams of the ancient Ma wang tui into the Standard Modern edition The formulation of the Trigram Order of Completion was derived by using Knight s Chess binary codes and the manipulation of hexagram identification numbers The cyclic sequences and trigram line to line transitions were utilized to formulate the King Wen s hexagram arrangement The natural numerical notation for each individual trigram was mathematically derived The author s inter face code was derived and used to determine the mathematical methodology of the Genetic Code Trigram lines are manipulated to form the Inner and Outer Nuclear trigrams hexagrams The Genetic Code was determined from Fu Hsi s diagram of the derivation of the Sixty Four hexagrams It also includes the constructional details of an analytical model calculator which can be created from the actual design details shown within this book This document provides the conclusive evidence that the originator s of the I Ching used a mathematical system which encompassed a formalistic natural philosophy that sought to embrace the entire world in a system of number symbolism It shows the links to the ancient Indian Vedic mathematical system which reveals the relationship between the I Ching and the Binary Genetic Codes
