The Social System: An Investigation into Our Objective and Subjective Reality Matthew Cwihun, 2018-08-21 We have reached a point in our evolution where our collective priority must be on the preservation of the human genus and we have two means of doing this we can either work towards building and sustaining human existence within closed and determinist social systems or we can strive towards designing open and creative social systems that nurture the maximum creative potential of the human individual The purpose of this book is to demonstrate why organizing humanity within open and creative social systems that nurture the conditions for individual humans to reach their greatest creative potential is not only necessary for establishing a framework for peace it is essential for humanity to reach its omnipotent state of evolution To learn more about TUHRN please visit <https://www.tuhrn.com>

The Racialized Social System Ali Meghji, 2022-04-13 Far from its origins in US legal studies in the 1980s critical race theory has grown to become a leading approach to the analysis of racial inequality around the world It has courted much controversy along the way often misunderstood and poorly defined So what precisely is critical race theory and what makes it different from other theories of race racialization and racism In this incisive book Ali Meghji defines the contours of critical race theory through the notion of the racialized social system He thereby excavates a solid social theory that clears up many empirical and conceptual questions that continue to surface offering a flexible practical model for studying structural racism In making his case Meghji pays attention to the multiple dimensions of the racialized social system focusing on core phenomena such as interaction orders material interests ideologies emotions and organizations In a context where any work mentioning race gets defined as critical race theory this book expounds an approach that promises to be more generative for the social scientific study of race

Law as a Social System Niklas Luhmann, 2004 However unlike conventional legal theory this volume seeks to provide an answer in terms of a general social theory a methodology that answers this question in a manner applicable not only to law but also to all the other complex and highly differentiated systems within modern society such as politics the economy

religion the media and education This truly sociological approach offers profound insights into the relationships between law and all of these other social systems

Constructing the Social System Bernard Barber, 2021-10-29 Barber constructs a provisional generalized substantive theory of the social system which he uses as the starting point and focus of his specialized researches In this collection of his major writings in social system theory Barber shows how he has used and developed such a framework over the last fifty years and demonstrates the application of
