The Time Trap Alec Mackenzie, R. Alec Mackenzie, 2002-05 You have all the time there is You have the same twenty four hours 1 440 minutes 86 400 seconds that everyone has What can be different is how you use them Whether you work for a huge multi national corporation a small start up or are self employed whether you re a farmer school principal lawyer store owner or research scientist chances are you fall into the same time traps we all do Now world renowned time management expert Dr Alec Mackenzie will show you how to climb out In Part One of The Time Trap Mackenzie explores the general principles of time management the hows and whys He begins by asking the biggest why of all in the twenty first century with all our pocket diaries personal organizers and hand held computers with expensive time management software why is time management still a problem He finds the answer in the powerful pull of human nature the difficulty of breaking old habits and learning new ones and the way habits in one area affect behavior in another Managing time starts with establishing goals and setting priorities After setting priorities you can take charge of your time and your time is your life by using the most effective time management tool a written plan for the day supported by an overall planning system In Part Two Mackenzie addresses the causes and cures of the top twenty time wasters For each he defines the real problem examines its cause and describes detailed solution strategies He shows that many of us fall into time traps because we don t know how to say No to a friend colleague family member or boss without being afraid of offending them Then he presents dozens of real life scenarios demonstrating exactly what to say and do in these delicate difficult situations You ll learn how to deal with drop in visitors maximize meetings delegate responsibility improve your communication and much more So read this book and reap the rewards of effective successful time management more productivity less stress faster progress toward your goals and a better balance between work and the rest of your life Book jacket Вычислительные Машины И Искусственный Интеллект, 1989 An Incremental Non-linear Planner Steve A. Chien, 1990 Abstract This paper describes a non linear planner that uses incremental inference to deal with complexity of planning using a representation with conditional effects This planner constructs initial plans using limited inference to reason about conditional effects of operators While this

significantly reduces the computational expense of plan construction it introduces the possibility that the initial plan will make incorrect predictions Because the planner uses a sound method for plan construction sound except for the limited consideration of effects when a plan fails it must be due to an unconsidered conditional operator effect *The Complete*
