What Is Preaching:

The Story of Preaching T. A. Prickett, 2011-06-09 The Story of Preaching is a fresh look at the preacher and preaching from the early days of the Church until today It is not a history of preaching because there are some obvious gaps in the timeline What I have attempted to do is to describe the preacher and the characteristics of the period in which he or she lived One of the things which I have tried to do is to show how the preachers handled the issues of their day One of my objectives in doing this is to help the preachers of my day to address the issues of this era as the preachers of old addressed the issues in their time The book will show that some who dared to challenge the attitudes of their day faced many challenges and some even faced death because of their commitment to apply the principles of the gospel to the status quo of their day However the book will show that there were those who challenged the mode of their time without facing death or threats of death They found a way to present their concerns to their constituents in a way that lead to success

The Witness of Preaching Thomas G. Long, 2005-01-01 This thorough revision of this classic text is even clearer and more helpful than the first edition Long has updated the language expanded the key chapter on biblical exegesis and has included more examples of sermon forms illustrations and conclusions

The Word of This Salvation in the Mouths of Christ's Ministers Michael R. Cooper, 2026-01-30 In a post Christian culture marked by shifting societal trends and technological advancements only a stable foundation can sustain the weight of Christian proclamation The Word of This Salvation in the Mouths of Christ's Ministers meets this challenge through homiletical retrieval within the Baptist tradition Following the model of historical ressourcement the study ensures continuity with the Baptist heritage while fostering renewal in contemporary preaching The book centers on Benjamin Keach an early English Particular Baptist whose sermons and writings provide the primary sources for constructing a systematic theology of preaching By situating Keach within his historical context his theology of preaching can provide a theo homiletical framework for contemporary expressions of Baptist preaching This theology comprises six interconnected elements epiphanical as its basis expositional as its object experiential as its subject effectual as its means ecclesial as its context and evangelical as its goal Each element is carefully derived from Keach's published works and evaluated against timeless homiletical questions The purpose is to equip Baptist preachers and teachers with a theologically coherent historically grounded framework that bridges past convictions with present practice enabling faithful and transformative proclamation in today's context

Transformational Preaching David M. Brown, 2003-02 Transformational Preaching Theory and practice is a comprehensive textbook for the beginning student of preaching the graduate student in pulpit discourse or the seasoned preacher Seeking to reclaim the pulpit for biblical preaching the book counteracts the popular teaching approach that is common today and argues that preaching must be persuasive rather than informative that the preacher is central to the act of preaching and that through the preaching event both preacher and listener together fashion the message and its meaning Both theoretical and highly practical the book offers a challenging look at all aspects of

the preaching ministry It contextualizes preaching in pastoral ministry and congregational worship but most significantly argues that the practice of preaching must be informed and driven by theory As such the book draws from a wide perspective of disciplines including biblical theology classical rhetoric contemporary human communication public discourse persuasion linguistics performance and orality The book s wealth of practical guidelines for every step of sermon development encourages students to apply general principles within their own contexts of ministry

What is Preaching According to the New Testament Klaas Runia,1976 What and how to Preach Alexander Oliver,1892 *The Bible Christian magazine, a continuation of the Arminian magazine* Bible Christians,1856 *The Christian Century* ,1921 *Contemporary African American preaching P3040* , L Susan Bond reveals the full range and diversity of African American preaching in this exploration of African American homiletical theories Portraying the many approaches that are empowering preaching in African American churches today Bond shows how different theological perspectives produce different methods of sermon preparation and delivery different strategies for selecting illustrative material and even different ways of beginning and ending sermons Her goal is not to lift up the right way to preach in the African American tradition but to show the richness and nuance contained within this powerful cultural expression
