What is Orientation? Werner Stegmaier, 2019-08-19 The very first thing one does in all situations of life is orient oneself Decisions of orientation which are mostly made under uncertainty and the pressure of time largely determine subsequent decisions But what is orientation The problems of orientation are as old as humankind the word is used everywhere but the concept has never been thoroughly investigated The philosopher Werner Stegmaier comprehensively clarifies for the first time the conditions and structures of orientation including those of our sexual economic media political legal scientific artistic religious moral and ethical orientations He thereby establishes a new philosophical language and offers a philosophy for our time As if I unexpectedly slipped down into a deep vortex I am swirled around in a way that I can neither put a foot down nor swim to the surface Nonetheless I will work my way out Ren Descartes Philosopher As often as my speculation seems to lead me too far from the paved road of common sense I stand still and seek to orient myself I look back at the point from which we started and I seek to compare the two guideposts I have Moses Mendelssohn Philosopher A philosophical problem has the form I do not know my way about Ludwig Wittgenstein Philosopher The second O orientation as the repository of our genetic heritage cultural tradition and previous experiences is the most important part of the O O D A loop since it shapes the way we observe the way we decide the way we act John Boyd Military Strategist
