Biohackers Magazine Issue 17 , When one experiences a new product a new treatment or a new idea there s little that compares to the feelings of excitement and hope that rush in fueling one s faith in the upright direction of humanity I just recently attended the 8th Annual Biohacking Conference hosted by Dave Asprey in LA and like each biohacking event I left feeling inspired to say the least Everything I saw every person I met and every biohack I experienced further fed my appetite to share these great ideas and practices with the world a world hungering for the opposite approach of industrialized medicine Now of course not every biohack is exactly 100% proven Suffice it to say there are many that are still in the process of collecting data from studies and clinical trials However those that have stood up to the modern pill popping regimes and have adamantly supported their ideas on the foundations of strong scientific data are truly examples to be held in high regard I was impressed with the many products and companies at the conference that held a mission of dedicated service to fellow mankind Yes like in any startup industry or even industry for that matter there are those who are looking to push some falsehood to scheme people into buying their product or services But as we know the companies that rise to the top are those that stick to the cardinal virtues that make up all of us Prudence Justice Fortitude and Temperance The Biohacking Industry is outgrowing its mold and soon a new layer of enthusiasts will be added This is something that should enthrall us but it shouldn t permit us to lose sight of the foundational attributes that make and will continue to make us biohackers for the rest of our lives Essentially we are all after freedom freedom from disease freedom from injury freedom from hysteria and freedom from aging Responsible Biohacking is perhaps the best way towards that freedom and we must continually adjust our sails to catch the winds that stem from truth and service That is what we at Biohackers Magazine strive towards serving the community through the provision of information carefully discerned and attuned to the values of sincerity and science

Biohack Your Morning: Ice, Light and Silence Maya Colton, 2026-03-10 The first hour of the day is not neutral It is being shaped by something either by habit by default or by deliberate choice For a growing number of people that choice involves cold natural light and quiet Not as a performance of optimization but as a genuine attempt to begin the day from a more grounded place Biohack Your Morning explores what happens when three simple evidence informed practices are combined into a consistent morning ritual cold exposure that activates physical alertness natural light that anchors the body s internal clock and silence that allows the mind to settle before the noise begins It examines not just the physiological reasoning behind each practice but the interior experience of building a morning that actually belongs to you This book offers insight into why mornings so often feel reactive rather than intentional and how small deliberate interventions can quietly shift the emotional and mental tone of an entire day It reframes biohacking not as a pursuit of peak performance but as a return to the basic conditions under which a human being functions with more clarity steadiness and self awareness For anyone who has sensed that their mornings are running them rather than the other way around this book explores a simpler

more honest approach to reclaiming that first hour [Biohack Like a Woman](#) Aggie Lal, 2024-09-26 THE INTERNATIONAL BESTSELLER AND LIFE CHANGING GUIDE Biohack Like a Woman written by health coach and biohacker Aggie Lal is a revolutionary approach to weight loss and biohacking that's made by a woman for women. We live in a world where women are bombarded with weight loss information from every angle. However, most of that information is created by men that see shedding pounds from a male perspective. They don't take into account the most important variable to us women: our Infradian Rhythm. Enter Biohack Like a Woman, a tailor-made way for you to lose all the weight you desire. Not by counting calories but by biohacking your Infradian Rhythm, otherwise known as your 28-day cycle. As you probably know, our cycles regulate our hormones, and hormones regulate our hunger, fat burning, energy levels, sleep quality, and mood. When we go on restrictive diets or bust our asses in the gym without being mindful of our hormones, we are going against our own body's rhythm. This is not a recipe book, this is not an exercise routine, this isn't even a diet book. It's a blueprint on how to listen to your Infradian Rhythm and adapt the information you'll discover in the book to your own special circumstances, which you can customize to you and your needs. And best of all, you won't have to change your diet or lifestyle to achieve your goals because one of the key things you'll find out when you read the book is that when and how you eat is more important than what you eat. Best part: Biohack Like a Woman comes with a trained AI coach to help you digest everything in the book and help you better calibrate the biohacking protocol to your unique needs. [Metabolic Freedom](#) Ben Azadi, 2025-05-13 NEW YORK TIMES BESTSELLER Founder of Keto Kamp and health expert reveals the main reason why 93 percent of Americans are metabolically unhealthy and provides a 30-day reset to restore their metabolism for good. Metabolic Freedom is for those who are fed up with the failed diet dogma of fad diets, calorie counting, and excessive exercise and are looking to finally break free with a new paradigm on how to reset their metabolism to achieve metabolic freedom. With Metabolic Freedom, readers will understand how their metabolism works and the top contributors to why their metabolism has become inefficient and then deep-dive into all of the main factors that influence a free metabolism, including the power of keto, fasting, improved sleep, cutting-edge bio-hacks, mindset shifts, smart exercise routines, specific food swaps, and more. This book will also explore the way hormones impact these processes as they impact male and female bodies differently. Most importantly, all of these tools are combined at the end of the book for the user to start implementing a clear roadmap to achieve Metabolic Freedom within 30 days by customizing their own plan. **The Best American Science Fiction and Fantasy 2023** R. F. Kuang, John Joseph Adams, 2023-10-17 Short stories have to accomplish a nearly impossible magic trick to introduce a world often much stranger than our own and make you care about it in a matter of pages, writes R. F. Kuang in her introduction. The most important part of this magic trick is just a willingness to get weird. The stories in *The Best American Science Fiction and Fantasy 2023* are brimming with bizarre and otherworldly premises: Women can't lie or fall in love. Fathers feed their children. Ghosts preserve souls. Souls chase one another through animal incarnations. Yet these stories are grounded deeply in our reality.
