Wallace,1986 **User-centred Requirements for Software Engineering Environments** David J. Gilmore,Russel Winder,Françoise Détienne,1994 The idea for this workshop originated when I came across and read Martin Zelkowitz s book on Requirements for Software Engineering Environments the proceedings of a small workshop held at the University of Maryland in 1986 Although stimulated by the book I was also disappointed in that it didn t adequately address two important questions Whose requirements are these and Will the environment which meets all these requirements be usable by software engineers And thus was the decision made to organise this workshop which would explicitly address these two questions As time went by setting things up it became clear that our workshop would happen more than five years after the Maryland workshop and thus at the same time as addressing the two questions above this workshop would attempt to update the Zelkowitz approach Hence the workshop acquired two halves one dominated by discussion of what we already know about usability problems in software engineering and the other by discussion of existing solutions technical and otherwise to these problems This scheme also provided a good format for bringing together those in the HeI community concerned with the

human factors of software engineering and those building tools to solve acknowledged but rarely understood problems

Database Systems For Advanced Applications '91 - Proceedings Of The 2nd International Symposium On Database Systems For Advanced Applications Akifumi Makinouchi,1992-09-21 This book provides an authoritative overview of the global development of surgical paediatrics Biographical accounts of key people who developed this relatively new specialty many of whom are now household names are presented The compendium also acknowledges the enormous contribution of imaging ultrasound MRI and PET scans minimal invasive surgery and fetal surgery as well as the role of related journals and associations in the progress of surgical paediatrics Many of the contributors have been instrumental to the development of surgical paediatrics in their respective countries and have considerable worldwide influence on the management of children requiring surgical care Through their valuable insight and first hand experience this book not only shines a light on the past achievements of previous generations of paediatric surgeons but also serves as a model to encourage future generations to do likewise

Proceedings of the Second Workshop on Environments and Tools for Parallel Scientific Computing J. J. Process-centered Software Engineering Environments Pankaj K. Garg,Mehdi Jazayeri,1996 Process Centered Software Engineering Environments PSEEs represent a new generation of software engineering environments in which the processes used to produce and maintain software products are explicitly modeled in the environment PSEEs hold the exciting promise of enabling a significant increase in both software productivity and quality The book presents a comprehensive picture of this emerging technology while highlighting the key concepts and issues The first chapter introduces some of the basic concepts and developments behind PSEEs and discusses the unifying role it plays in combining project management software engineering and process engineering The second chapter reviews related process modeling and representation concepts terminology and issues Chapter 3 analyzes the features of some example PSEEs and Chapter 4 takes an inside look at the implementation of these features by describing specific design choices made by researchers The last chapter discusses the evolution of PSEEs to accommodate practical issues in actual work settings and to play a more significant role in the software life cycle The text is a collection of influential papers that will bring the newcomer quickly up to speed on this fast moving field For the researcher the issues described in the text present a challenge to be conquered and directions to pursue For the practitioner they represent benefits that may be gained in the application of PSEEs in the work environment
