Lisa M. Given,2008-08-21 An encyclopedia about various methods of qualitative research **Ethnography for the Internet**
Christine Hine,2015-01-29 The internet has become embedded into our daily lives no longer an esoteric phenomenon but
instead an unremarkable way of carrying out our interactions with one another Online and offline are interwoven in everyday
experience Using the internet has become accepted as a way of being present in the world rather than a means of accessing
some discrete virtual domain Ethnographers of these contemporary Internet infused societies consequently find themselves
facing serious methodological dilemmas where should they go what should they do there and how can they acquire robust
knowledge about what people do in through and with the internet This book presents an overview of the challenges faced by
ethnographers who wish to understand activities that involve the internet Suitable for both new and experienced
ethnographers it explores both methodological principles and practical strategies for coming to terms with the definition of
field sites the connections between online and offline and the changing nature of embodied experience Examples are drawn
from a wide range of settings including ethnographies of scientific institutions television social media and locally based gift

of the Other Panchanan Mohanty,Ramesh C. Malik,Esvarappa Kasi,2008 This book primarily tries to bring out the analogy
between the conceptual and methodological discourses on the theme of the other The term Other here refers to the
oppressed sections of the society It may be dalits women indigenous or ethnic communities Since we are living in a
multicultural and multilingual society we should share our views with others on a platform where issues of the marginalized
people are addressed by different scholars following different methods and techniques Though there are various policies and
plans for the welfare of the downtrodden hardly any change can be seen at the micro level structure of the society There are
studies which highlighted the problems and ethos of the downtrodden sections but a majority of those studies neglected the
marginalized groups Hence we felt the need to highlight the issues and concerns of these groups in a wider context and
started thinking on the theme Ethnographic Discourse of the Other Conceptual and Methodological Issues This volume
attempts to discuss and theorize the pragmatic concepts and issues related to the marginalized groups in contemporary
societies in South Asia This book is interdisciplinary in nature and will be useful to scholars and students of Anthropology
Sociology Linguistics Social Work Culture Studies Gender Studies and Philosophy It is widely applicable to all sections of the
