

# Project Phases in an Implementation

## Preliminary Project

This includes the business plan, selection of overall concept and product.

## Project Preparation

The project preparation phase includes overall vision of the solution, securing the technical requirements, procuring and installing hardware and software.

## Business Blueprint

The Business Blueprint phase includes compiling and defining the target status of the business processes concerned, technically precise concept, installing the development system.

## Realization

The Realization phase includes configuring the application, if necessary, performing modifications, installing a quality assurance system.

## Final Preparation

The Final Preparation phase includes the data migration, load tests, adjustments, preparing and conducting user training.

There is a large, and constantly growing, proportion of business application software in the entire application portfolio) and more and more decisions are being taken on the basis of the Total Cost of Ownership (TCO), which incorporates license fees, as well as implementation and operating costs.
