Introduction to Social Work Lisa E. Cox, Carolyn J. Tice, Dennis D. Long, 2015-01-21 Introduction to Social Work by Lisa E. Cox, Carolyn J. Tice and Dennis D. Long is an exciting and timely new text that takes readers to the roots of the social work profession framing its history practice settings and career paths through the lens of advocacy. Closely aligned with the latest Educational Policy and Accreditation Standards (EPAS), the text goes beyond standard coverage to explore such cutting edge content as military social work, environmental issues, global international social work, housing, and more. Robust applied pedagogy and an emphasis on advocacy and reflective practice help underscore the transformative opportunities and contributions of social work on clinical, client, community, national, and international levels. *An Introduction to Social Work* John O'Grady, 1928 *Changing Agency Policy* Ann Rae, Wanda Nicholas-Wolosuk, 2003 This text presents an action strategy model of social change that social workers can use to impact the policy process at the agency level to benefit clients. Social workers must learn to advocate changes in policy at the agency level in order to benefit and empower consumers of social services. The action strategy model will be useful for all social workers whether they are intervening at the agency level or at larger social systems such as regional or state levels. Value issues, ethical considerations, and diversity permeate every aspect of policy making from formulation of the initial idea to implementation of a new policy. This book discusses values and diversity inherent in the agency policy change process as well as how these relate to professional social work values.

Islam and Social Work Crabtree, Sara Ashencaen, Husain, Fatima, Basia Spalek, 2016-12-07 Social services have typically addressed equality and diversity issues through the lens of race and ethnicity while the faith identities of minority ethnic communities have been largely bypassed. But in our contemporary world there is a strong need for policies and services that are sensitive to faith in general and to Islam in particular. This unique book enables social work practitioners to gain a deeper understanding of how Islamic principles inform and influence the lives of Muslim populations. Designed to support work with families and faith communities, it examines religious precepts, cosmologies, philosophies, and daily practices while acknowledging cultural variants and population heterogeneity. The second edition includes a comprehensive update of the research literature, detailed description and explanation of contemporary social work practice with Muslim service users, using an updated and expanded collection of international case studies, and new sections on religious extremism, aging, and end of life care. The only book specifically addressing social work with Muslim communities, *Islam and Social Work* provides an essential toolkit for culturally sensitive social work practice. **Social Justice and Social Work** Michael J.

Austin, 2013-03-26 Edited by a leader in the field, this book presents and ties social justice to the core values of social work across the curriculum. It presents the history and philosophy that supports social justice and ties it to ethical concepts which help students understand social justice as a core social work value. *Confronting Oppression, Restoring Justice* Katherine S. Van Wormer, 2004 An empowerment approach is the organizing framework for this text which examines the nature of

oppression who does it and why from the standpoint of biological and social psychological aspects The impact on victim survivors is explored through the inclusion of brief personal narratives recording grueling consciousness raising experiences This book is appropriate for courses in oppression racism and policy analysis A small paperback it can be used as a supplement to a course such as human behavior and the social environment Divided into two parts the first of which focuses on oppression and the second on the twin concept of injustice **Confronting Oppression and Restoring Justice** has as its major task the addressing of the age old question for social workers How can we avoid participating in the oppression Or working from the outside How can we help the casualties of economic restructuring or the victims of structural or interpersonal violence Examples of exemplary programs and actions to confront oppression and injustice are provided
