   The Learning of Language National Council of Teachers of English,1971   **The Learning of Language** Carroll E. Reed,   **How Children Learn Language** William O'Grady,2005-01-06 Adults tend to take language for granted until they have to learn a new one Then they realize how difficult it is to get the pronunciation right to acquire the meaning of thousands of new words and to learn how those words are put together to form sentences Children however have mastered language before they can tie their shoes In this engaging and accessible book William O Grady explains how this happens discussing how children learn to produce and distinguish among sounds their acquisition of words and meanings and their mastery of the rules for building sentences How Children Learn Language provides readers with a highly readable overview not only of the language acquisition process itself but also of the ingenious experiments and techniques that researchers use to investigate his mysterious phenomenon It will be of great interest to anyone parent or student wishing to find out how children acquire language   **The No-Nonsense Guide to Language Learning** Benny Lewis,2018-09-22 Benny Lewis rocks Tim Ferriss author the Four Hour Working Week Benny was enormously helpful in planning my year without English Scott Young Rapid Learner Benny s destiny was to never speak Spanish or any other language At school he spent years studying Irish and German Even after all this study he still couldn t speak them By the time he reached his 20 s he could only speak English Yet he ignored the call of destiny and decided to learn Spanish anyway These days Benny speaks over 10 languages all self taught and runs the world s most popular language learning blog Fluent in 3 Months How has he achieved this He s devoted his adult life to discovering language hacks faster and smarter ways to learn a new language Inside The No Nonsense Guide to Language Learning you ll discover Why Benny s destiny was to never speak Spanish and how he did it anyway The smartest decision you can ever make for your language learning How to learn a new language fluently How beginners can outsmart expert language learners Why the CIA wrong and it doesn t take 1 000 hours to learn a language The 7 most common mistakes language learners make and how to fix them How to practise speaking a foreign language without travelling overseas If you want to learn how to speak a new language pick up your copy of The No Nonsense Guide to Language Learning today   **Supporting the Learning of Chinese as a Second Language: Implications for Language Education Policy** Joseph Lo Bianco,Elizabeth Ka Yee Loh,Mark Shiu-kee Shum,2024-10-25 The research in this volume takes account of the context of policy promoting Chinese as a second language CSL in several countries and regions Australia East Asia and South East Asia and the wider social context of multilingual and multicultural societies Furthermore this book reports results of two research studies which investigated how to develop effective strategies to promote learners motivation and the motivational developments of adult learners in real life settings helping to overcome gaps in this under researched area Findings reported in this book have been scientifically examined and found to be effective in enhancing the learners CSL proficiency increasing their learning motivation and addressing the need for a diversity of targeted approaches to CSL
