**(FLIRT LIGHTLY AND BRIGHTLY OR YOU'LL

EYELINER

Eyeliner is used to accent a particular shape, to make the eyes appear larger, or to make the lashes appear longer and more lush. Not everyone should use eyeliner, and never should both the upper and lower lid be lined darkly, if lining under the eye for daytime wear, always line on the inner rim of the lower eyelid. Use dark brown pencil—black creates too much harshness and light brown has too many overtones of red. For special evenings you might wear blue or green, but it is not recommended.

If an eyeliner is used it must be very skillfully drawn with a sharpened eyebrow pencil and then blended into the lashes so it is a shadow, never a definite dark line. Very few women have the skill to make liquid eye liner look believable.

Remember, the use of make-up is to "make up" for something you don't have, or that you need more of. Therefore, if you use eyeliner to make your lashes look longer and thicker or change the shape of your eyes, you don't want to make your intentions of your eyeliner obvious.

WHAT TO DO:

An eyeliner is drawn from the inner corner of the eye outward and should never extend further than a quarter of an inch beyond the outer corner. Pull the eyelid flat out at the outer corner and keep the line traveling at the very rim of the lid. Always soften the line very slightly with your fingertips after it has been drawn.

... APPLY LINER AS SHOWN: BEHOLD

THE SHADE OF YOUR SHADOW

Babies have it.

Big girls buy it.

Little girls are bound to try it.

This lot of nonsense is no exaggeration. Look closely at the next pre-toddler you see. A baby is born with beautiful eye shadowing. You can see the soft hues of muted blues and purples, and even browns and greens. But like the smart girl, a baby would never be guilty of bad taste. You can never catch more than a SHADOWY of a color. Eyeshadow, as the name implies, is never a color—it is the shadow of a color.

WHAT TO DO:

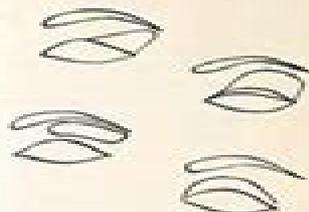

Never let your eyeshadow appear where a shadow would not be expected. Eye shadow never goes wider than your brow line and never goes above the brow bone.

Flatten your lids before and after applying your shadow. The shadow will look prettier and stay much longer. Check your shadow the last thing before leaving your room to be sure it hasn't transferred its position and isn't "bleeding".

WHERE TO PLACE

1. If your eyes are too close together—shade toward the temples.
2. If your eyes are too far apart—shade toward the point directly above the center of the eye.
3. If your eyes are deep set—shade upward toward the brow bone.
4. If your eyes protrude—choose a muted brown or grey shade and position toward the eyelid.

You may choose your eyeshadow to **match** the color of your eyes or to **contrast** with the color of your eyes. You may even wish to match the color of your clothes. But never use a color for its own sake.

A MASC—OR MASCARAE

Good well, mascara can succeed in taking your eyelashes out of the ordinary and can make them look long, luscious and lovely.

having

wonderful

HOW TO APPLY

Hold a small mirror in your hand. Tilt your chin down and look downward into the mirror. Apply your mascara with soft strokes, upward and outward, to create a natural curve. Stroke mascara on both the upper and underside of your lashes. Be sure to bring your mascara to the very ends of your lashes to take full advantage of their length. It makes the eyes look larger and brighter. Allow the mascara to dry and then separate the lashes.

Stay with brown mascara. It's a natural skin tone. Black should be used only if your hair and lashes are "coal black".

TO CURL OR NOT TO CURL

Lashes do look more important if you curl them. But even with a good curler there is danger of chipping or breaking your lashes.

WHAT TO DO:

The new roll-on mascara gently curls the lashes without the use of a curler. Another trick—cross your lashes—then gently press them upward with your finger. Done rightly, this will develop permanent curl in your lashes.
