Mine the Gap for Mathematical Understanding, Grades 3-5 John SanGiovanni, 2016-09-16 Being an effective math educator is one part based on the quality of the tasks we give one part how we diagnose what we see and one part what we do with what we find Yet with so many students and big concepts to cover it can be hard to slow down enough to look for those moments when students responses tell us what we need to know about next best steps In this remarkable book John SanGiovanni helps us value our students misconceptions and incomplete understandings as much as their correct ones because it s the gap in their understanding today that holds the secrets to planning tomorrow s best teaching SanGiovanni lays out 180 high quality tasks aligned to the standards and big ideas of

Grades 3 5 mathematics including addition and subtraction of multi digit whole numbers multiplication and division of single and multi digit whole numbers foundational fraction concepts foundational decimal concepts and operations with fractions and decimals The tasks are all downloadable so you can use or modify them for instruction and assessment Each big idea offers a starting task followed by what makes it a high quality task what you might anticipate before students work with the task 4 student examples of the completed task showcasing a distinct gap commentary on what precisely counts for mathematical understanding and the next instructional steps commentary on the misconception or incomplete understanding so you learn why the student veered off course three additional tasks aligned to the mathematics topic and ideas about what students might do with these additional tasks It s time to break our habit of rushing into re teaching for correctness and instead get curious about the space between right and wrong answers Mine the Gap for Mathematical Understanding is a book you will return to again and again to get better at selecting tasks that will uncover students reasoning better at discerning the quality and clarity of students understanding and better at planning teaching based on the gaps you see

Education, Environment And Society Dr. Nasrin, **The Assessment and Treatment of Children Who Abuse Animals** Kenneth Shapiro, Mary Lou Randour, Susan Krinsk, Joann L. Wolf, 2013-09-07 Empirical research has clearly demonstrated that animal abuse in childhood is associated with family violence and violent behavior towards humans in general Such abuse is accordingly of increasing interest within human services and the criminal justice system This handbook will serve as an ideal resource for therapists in social work psychology psychiatry and allied fields who work with children who have abused animals It provides step by step guidance on how to assess develop appropriate treatment plans for and treat children who commit animal abuse based on the AniCare model developed by the Animals and Society Institute Exercises cover the identification and expression of feelings the development of empathy self management skills and working with parents Careful consideration is also paid to the effects of witnessing animal abuse The theoretical framework is eclectic encompassing cognitive behavioral psychodynamic and attachment theories A number of illustrative case studies are included along with excerpts from treatment sessions Accompanying electronic supplementary material demonstrates role played assessment and treatment and includes workshop presentations of pedagogic material **Basic Engineering Circuit Analysis** J.
