Keyes,2024-02-27 Education is Freedom explores the transformative power of education and its ability to liberate individuals and societies from the constraints of ignorance inequality and oppression In this book author James Keyes explores the ways education empowers people to take control of their lives to pursue their dreams and to contribute to the world in meaningful and fulfilling ways He provides a roadmap to the why what and how of learning The book outlines the importance of education for all mankind the power of education to change our world and the wisdom to unlock our personal freedom while preserving our democracy Where does humanity go to school Democracy across the world is at risk With the polarization of today s society the foundational right to freedom of speech is now being challenged from all sides The truth is under siege as misinformation and hostility have replaced critical thinking and civil discourse Our freedom of self determination has a prerequisite an informed electorate If that electorate is armed with false information or is influenced by outside forces their actions and reactions can put democracy in jeopardy Today more than ever we must nurture the education knowledge and wisdom of individuals to discern right from wrong truth from fiction and success from failure If learning is the key to success then how can humanity advance its own cause Our forefathers recognized that an educated populace was the very foundation of democracy Education is a self help guide for humanity that allows us to individually and collectively understand the roadmap to freedom For the individual education is the one common denominator that separates those who are free from the ones trapped in their own reality Someone can take your money your material things your job but they can t take away what you know With knowledge you can replace anything lost you can be free to explore the world you are beholden to no one Whatever challenges or adversity you face in life embracing a learning mentality will empower you and set you free Humanity must indeed go back to school because the future is in our hands *The Video Librarian* ,2004 **Video Source Book** ,2008 **Educational Film & Video Locator of the Consortium of College and University Media Centers and R.R.
