## **The Ice House:**

The Ice House Thomas Gustafson, 2018-11-29 The Larson icehouse had stood abandoned on the south shore of Black Wolf Lake for the past eighty years. During that time the building had a rather checkered, some might say sordid past. And now in the spring of 1980 evil had apparently taken up residence. Jessica Wiggins, Stewart Gregory, and Caleb Anders, eighth graders at Immanuel Lutheran School in Longville, Minnesota, were enjoying their last spring break before starting high school in the fall. Jess had a faith statement to prepare for church, Stewart had a project to complete for the science fair, and Caleb well... Caleb was bored. But Caleb was never bored for long. Some strange men had occupied the icehouse. Caleb's curiosity was an itch that needed scratching. Over the next five days, with Jess and Stewart's help, he would determine who these men were and why their mission was so secretive. In the process, he would put himself in grave danger. There are singular moments in our lives when our actions can truly make a difference. In the spring of 1980, the activities at the Larson icehouse would provide one of these moments in Caleb's short life.

The Ice House Monica Sherwood, 2021-11-16 With shades of *When You Reach Me*, *The Thing About Jellyfish*, and *Bridge to Terabithia* and a big, timely climate hook at its core, here is a heartfelt middle grade debut about the inevitability of change that will resonate profoundly during these extraordinary times. Spring has arrived, and yet an unyielding winter freeze has left Louisa snowed into her apartment building for months, with parents coping with extreme stress, a little brother struggling with cabin fever, and awkwardly her neighbor and former close friend Luke. The new realities of this climate disaster have not only affected Louisa's family, but when Luke's dad has an ice-related accident and it's unclear if he'll recover, both families' lives are turned upside down. Desperate to find an escape from the grief plaguing their homes, Louisa and Luke build a massive snow fort in their yard. But their creation opens up an otherworldly window to what could lie ahead and sets them on a mission to restore the universe to its rightful order so the ice will melt and life will return to normal. With a deft combination of heartfelt prose and a touch of magic, Monica Sherwood's affecting debut novel is a relatable story of families grappling with and emerging from a different kind of quarantine.

**The Ice House** Minette Walters, 1993-09-15 With this stunning debut, a marvelous marriage of classic convention and contemporary sophistication, Minette Walters sets a new standard of excellence for the mystery novel. The three women living in seclusion at an elegant Hampshire country house have long been fodder for village gossip, even whispers of a witches' coven. So when a faceless corpse of uncertain vintage is found in the Streech Grange ice house, Chief Inspector Walsh can't wait to make a case of it. Lady of the manor Phoebe Maybury, still haunted by Walsh's relentless investigation of her husband's strange disappearance ten years ago, is calm. She and her two housemates, sensitive charming artist Diana Goode and pretty earthy Anne Cattrell, seem as puzzled as the police. But do they have something to hide? While Walsh strives to nail Phoebe for murder, sexy young Detective Sergeant McLoughlin turns his attention to the exasperating and magnetic Anne. Soon his inquiry and his impulses will draw him into a tangled thicket of love, loyalty, and deadly intrigue.
