The Image Of Man:

The Image of Man George L. Mosse, 1998-10-08 What does it mean to be a man What does it mean to be manly How has our notion of masculinity changed over the years In this book noted historian George L Mosse provides the first historical account of the masculine stereotype in modern Western culture tracing the evolution of the idea of manliness to reveal how it came to embody physical beauty courage moral restraint and a strong will This stereotype he finds originated in the tumultuous changes of the eighteenth century as Europe s dominant aristocrats grudgingly yielded to the rise of the professional bureaucratic and commercial middle classes Mosse reveals how the new bourgeoisie faced with a bewildering rapidly industrialized world latched onto the knightly ideal of chivalry He also shows how the rise of universal conscription created a soldierly man as an ideal type In bringing his examination up to the present Mosse studies the key historical roles of the so called fairer sex women and unmanly men Jews and homosexuals in defining and maintaining the male stereotype and considers the possible erosion of that stereotype in our own time The Image of Man George Lachmann Mosse, 1998

The Patristic Understanding of Creation William A. Dembski, Wayne J. Downs, Fr. Justin B. A. Frederick, 2019-11-14 The Patristic Understanding of Creation encapsulates what the Church Fathers had to say in their own words on the topic of creation Going back to Roman and Byzantine times the writings of the Church Fathers are basic to Christian theology and provide a benchmark for how Christians have traditionally understood creation This understanding of creation however faces tremendous challenges in our day especially in discussions at the intersection of science and religion Process theology and other efforts to reconceptualize creation have explicitly opposed key elements of the Christian doctrine of creation creation ex nihilo the transcendence and immanence of God in creation the absolute creatureliness and non self sufficiency of the world to use a phrase of Fr Georges Florovsky the goodness of creation and the openness of the world to divine action All of these the Church Fathers not only held but also ably defended This anthology is therefore not merely of academic or historical interest In reasserting a theologically sound understanding of creation this anthology fills a need that is both practical and urgent
