Memory in Vergil's Aeneid Aaron M. Seider, 2013-09-12 Tracing the path from Troy s destruction to Rome s foundation the Aeneid explores the transition between past and future As the Trojans struggle to found a new city and the narrator sings of his audience s often painful history memory becomes intertwined with a crucial leitmotif the challenge of being part of a group that survives violence and destruction only to face the daunting task of remembering what was lost This book offers a new reading of the Aeneid that engages with critical work on memory and questions the prevailing view that Aeneas must forget his disastrous history in order to escape from a cycle of loss Considering crucial scenes such as Aeneas reconstruction of Celaeno s prophecy and his slaying of Turnus this book demonstrates that memory in the Aeneid is a reconstructive and dynamic process one that offers a social and narrative mechanism for integrating a traumatic past with an uncertain future
