**Metaphor Reexamined** Liselotte Gumpel,1984 Breaking away from the traditional neo Aristotelian view of metaphor Liselotte Gumpel s ambitious study offers a new non Aristotelian approach based on the phenomenological semantics of Roman Ingarden and the semiotics of Charles S Peirce The author seeks to grasp the meaning of metaphor through an exhaustive exploration of meaning in language from its acquisition by young speakers to its repeated origination in sound when spoken and in the visual sign when written She identifies the fundamental semantic operations that differentiate literal from literary use of language Next metaphor is examined in all of its semantic idiosyncrasies Gumpel s theory culminates in the development of a functional or structural metaphor that can neither disappear nor die Applying the theory Gumpel presents several textual analyses relating the categories of argument dicent and rheme to the use of metaphor by Brecht Dickinson and Celan A final section provides an incisive critique of theories of metaphor from Aristotle to the present

**Political Folk Music in America from Its Origins to Bob Dylan** Lawrence J. Epstein,2010-03-08 Many American folk singers have tried to leave their world a better place by writing songs of social protest Musicians like Woody Guthrie Leadbelly Pete Seeger Bob Dylan and Joan Baez sang with fierce moral voices to transform what they saw as an uncaring society But the personal tales of these guitar toting idealists were often more

tangled than the comparatively pure vision their art would suggest Many singers produced work in the midst of personal failure and deeply troubled relationships and under the influence of radical ideas and organizations This provocative work examines both the long tradition of folk music in its American political context and the lives of those troubadours who wrote its most enduring songs
