Comparative and Decolonial Studies in Philosophy of Education David G. Hebert, 2023-03-18

This book introduces the educational philosophies of notable African and Asian thinkers who tend to be little recognized in Europe and North America. It offers specific resources for diversification of higher education curricula. The book expands the philosophy of education in clear language to include ideas of major non-western educational thinkers who are little discussed in previous publications. It includes critical analysis of non-western concepts and consideration of their relevance to schools worldwide. The book features discussions of how the work of Tagore and postcolonial thinkers offers diverse visions that increasingly inspire a decolonizing approach to education. This book offers a unique emphasis on how a decolonized philosophy of education can especially enable a rethinking of approaches to education in arts and humanities subjects.
