Inquiry Into Life Sylvia S. Mader, 1994-01 **Threshold Concepts and Transformational Learning**, 2010-01-01 Over the last decade the notion of threshold concepts has proved influential around the world as a powerful means of exploring and discussing the key points of transformation that students experience in their higher education courses and the troublesome knowledge that these often present Threshold concepts provoke in the learner a state of liminality in which transformation takes place requiring the integration of new understanding and the letting go of previous learning stances Insights gained by learners as they cross thresholds can be exhilarating but might also be unsettling requiring an uncomfortable shift in identity or paradoxically a sense of loss The liminal space can be a suspended state of partial understanding or stuck place in which understanding approximates to a kind of mimicry Threshold Concepts and Transformational Learning substantially increases the empirical evidence for threshold concepts across a large number of disciplinary contexts and from the higher education sectors of many countries This new volume develops further theoretical perspectives and provides fresh pedagogical directions It will be of interest to teachers practitioners and managers in all disciplines as well as to educational researchers

Biology Neil A. Campbell, Jane B. Reece, 2005 The Art Notebook contains all the line art from the text without labels so students can take notes in class without having to draw the diagrams

Past, Present, and Future Contributions of Cognitive Writing Research to Cognitive Psychology Virginia Wise Berninger, 2012 This volume tells the story of research on the cognitive processes of writing from the perspectives of the early pioneers the contemporary contributors and visions of the future for the field It includes the very latest in findings from neuroscience and experimental cognitive psychology and provides the most comprehensive current overview on this topic
