Understanding Bourdieu Jen Webb, 2002 Providing a perspective on the work of French social theorist Pierre Bourdieu this introductory text makes an ideal primer for all

students who are beginning sociology and cultural studies *An Analysis of Pierre Bourdieu's Outline of a Theory of Practice* Rodolfo Maggio, 2018-02-21 In *Outline of a Theory of Practice* Bourdieu questions the preeminent ideas of social anthropologists such as Levi Strauss who stressed the structural principles governing human action rather than the actions themselves and Bourdieu asserts doesn't account for all observable nuances of behaviour Drawing on his fieldwork in Algeria he expresses the need for a theory of practice focusing on the dynamic flow of human actions in the social world Bourdieu coins the term habitus a relational concept linking structures to the practice of agents *Outline* is a significant and original contribution providing an account of many of the issues Bourdieu continued to develop through his career

Embracing Disruptive Coherence Kathleen T. Talvacchia, 2019-04-18 Does anyone need to come out anymore Queer theory has challenged the idea of coming out as problematic for its false binary and essentialized version of identity If gender is a socially constructed performativity then what does coming out mean At the same time we live in a society that still struggles with structures of power that define what is considered normal and sanctions those who transgress The intersectionality of gender with race

class ethnicity nationality abilities religion age and other positional markers challenge a simplified belief that coming out is not necessary Therefore in the lived experience of many persons coming out still matters This book initiates a different theological conversation about coming out It argues that rather than the declaration of an identity category coming out can be understood as the erotic ethical practice of truth telling The formation of conscience and moral integrity embody the two pillars of this erotic practice Coming out understood as disruptive coherence is the erotic ethical practice of truth telling grounded in our deepest desires to be known authentically in community

The Oxford Handbook of Global South Youth Studies Sharlene Swartz, Adam Cooper, Clarence Batan, Laura Kropff Causa, 2021 The Oxford Handbook of Global South Youth Studies offers a contribution from Southern scholars to remake Youth Studies from its current state that universalises Northern perspectives into a truly Global Youth Studies It foregrounds Southern youth's life worlds and realigns theory with contemporary youth practices into a more just and egalitarian epistepaxis

Sex, Power and Consent Anastasia Powell, 2010-07-29 Sex Power and Consent Youth Culture and the Unwritten Rules draws on the real world stories and experiences of young women and young men as told in their own words regarding love sex relationships and negotiating consent Judicious reference to feminist and sociological theory underpins explicit connections between young people's lived experience and current international debates Issues surrounding youth sex within popular culture sexuality education and sexual violence prevention are thoroughly explored In a clear incisive and eminently readable manner Anastasia Powell develops a compelling framework for understanding the unwritten rules and the gendered power relations in which sexual negotiations take place Ultimately Sex Power and Consent provides practical strategies for young people and those working with them toward the prevention of sexual violence

Seeing Right Jason M. R. Fallin, 2025-06-24 Evangelical identity in the United States has become increasingly contested over the past several years as many try to fathom adherents motives Seeing Right suggests that it is through the exploration of aesthetic texts that we can better understand With a focus on highlighting Evangelical virtues and vices Seeing Right analyzes the aesthetics fundamental to Evangelical identity and moral formation Aesthetic texts and practices represent a fundamental source of Evangelical moral formation providing a narrative that shapes imaginations and dispositions Jason Fallin traces the process of formation as it grows out of Evangelical interactions with the aesthetic texts produced by Operation Christmas Child the radio stations of K Love and Christian cinema He then discovers the relationship between Evangelicals engagement with these aesthetic texts and the practices they animate Moral formation is key for all Christianity thus through these processes at work in Evangelical culture Seeing Right offers insight both into Evangelical development and into the processes that fund one's own formation

The Refinement of Form and Bourdieu's Theory of Modernity Clifford A. Westfall, 2001 Poznan Studies in the Philosophy of the Sciences and Humanities, 1993 Radical Revisionism Rex Butler, 2005 A selection of the most important recent writings on Australian art which questions what is the proper role for art history Is it merely to chronicle the truth of the past

or is it actively to intervene in the events of records

The History of Continental Philosophy Alan D. Schrift, 2011-01-01

From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant's philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike

Discursive Analytical Strategies Niels Åkerstrøm Andersen, 2003 Examining the theories of Foucault Koselleck Laclau and Luhmann the book discusses and combines these theories to suggest new analytical strategies for understanding society

The Law Workbook Scott Beattie, 2010 This book lays the groundwork for you to become a capable legal researcher whether you aim to work as a lawyer in legal policy or in an ancillary legal role Through active learning exercises and reflective journaling you will not only learn how to research but also be able to understand your own strengths and weaknesses to develop as a legal professional Reading this book will not automatically transform you into a researcher just as reading a cookbook will not make you into a chef instantly and reading a woodworking manual will not turn you into a carpenter You learn by doing and this manual is a tool to help you get your hands dirty This edition a successor to Legal and Justice Studies Workbook has been largely rewritten from the ground up as a response to the changing nature of research and university learning in the ten years since the first edition While some of the sub sections remain the same the overall approach has been altered to focus on reflective learning and on the nature of information We are in an exciting time for researchers as the internet has entirely reshaped the research field and continues

to do so To keep up with these developments we need to ask serious questions about what information is how we evaluate it and how we apply it in the construction of research projects
