Burke, 2013-11-26 Seeking to mediate between the classical view of countertransference as a neurotic impediment to the treatment process and the more recent totalist perspective which assumes that the therapist's emotional response necessarily reveals something about the patient Tansey and Burke stake out a thoughtful middle ground They submit that the therapist's utilization of adequately processed countertransference reactions is in fact integral to treatment success while arguing against the totalist assumption that the therapist's emotional to the patient must be revelatory in a direct and immediate way *Therapists Use of Self in Family Therapy* Daniel Bochner, 2000-06-01 To find out more about Rowman Littlefield titles please visit us at [www.rowmanlittlefield.com](http://www.rowmanlittlefield.com) *Authentic Movement: Moving the Body, Moving the Self, Being Moved* Patrizia Pallaro, 2007-01-15 This second volume on Authentic Movement a new discipline aiding the creative process in the expressive arts is an engaging and dynamic collection of scholarly essays personal stories practical suggestions and resources It reflects cutting edge work on creative expression meditative discipline and psychotherapeutic endeavour **Shared Wisdom** Pamela Cooper-White, 2024-11-19 For twenty years clinical pastoral educators congregational caregivers chaplains pastoral psychotherapists and pastoral theologians have turned to Pamela Cooper White's *Shared Wisdom* to ground their teaching training and understandings of countertransference and how the use of the caregiver's self in turn impacts the relational dynamic between caregivers and care seekers Now Cooper White updates her groundbreaking book to present new insights on how understanding one's own emotional reactions remains a core competency for ministry With precision and depth Cooper White continues to innovate the theory and practice of spiritual care counseling and spiritual psychotherapy This revised and expanded 20th anniversary edition explores current research on countertransference and intersubjectivity mutual influence and unconscious relationships and intercultural and interreligious dynamics in caring relationships Cooper White examines how the relational paradigm for pastoral assessment and theological reflection that she pioneered now has important implications for evolving types of care relationships As she does so she addresses emerging topics such as postcolonial theory spiritual and religious fluidity and gender diversity CPE supervisors pastoral care and counseling educators and practitioners pastoral theology scholars and psychotherapists looking for an in depth understanding of relationality and intersubjectivity will find the 20th anniversary edition of *Shared Wisdom* a must have resource to build and expand upon a core competency *Intersubjective Processes and the Unconscious* Lawrence J. Topics of discussion include the unconscious dimensions of intersubjective processes an historical overview of Freudian Kleinian and Bionian contributions an integrated theory of the nature of unconscious intersubjective processes the central importance of dreaming in intersubjective processes the clinical implications of this intersubjective model The author offers in depth clinical examples and case vignettes to illustrate the application of these principles when working with trauma countertransference dreams and supervision As such this book will be invaluable to all psychoanalysts and psychotherapists interested in the topic of intersubjectivity as well as those who want to learn more about the interactional dimensions of Freud Klein and Bion

**Relational Psychoanalysis** Stephen A. Mitchell,Lewis Aron,Adrienne Harris,1999 Over the course of the past 15 years there has been a vast sea change in American psychoanalysis It takes the form of a broad movement away from classical psychoanalytic theorizing grounded in Freud s drive theory toward models of mind and development grounded in object relations concepts In clinical practice there has been a corresponding movement away from the classical principles of neutrality abstinence and anonymity toward an interactive vision of the analytic situation that places the analytic relationship with its powerful reciprocal affective currents in the foreground These developments have been evident in virtually all schools of psychoanalysis in America from the most traditional to the most radical The wellspring of these innovations is the work of a group of psychoanalysts who have struggled to integrate aspects of interpersonal psychoanalysis various British object relations theories and psychoanalytic

feminism Although not self selected as a school these theorists have generated a distinct tradition of psychoanalytic thought and clinical practice that has become extremely influential within psychoanalysis in the United States
