Time From The World:

Man-Time-World Mogens True Wegener,2023-01-31 The present book is a collection of papers from my life as a philosopher Besides philosophy it also covers the topics of logics physics cosmology and theology In all these fields it has been my aim to propose new ideas as a solution to old problems The collection contains papers on issues from the entire European history of ideas treating philosophical themes of Plato Augustine Anselm Dante Cusanus Leibniz Kant Hegel Kierkegaard and Borges together with the logical ideas of Peirce and Prior the physical ideas of Einstein and Milne and the crazy hypotheses marring modern cosmology In order to clear the way for new ideas I have had to chastise cherished positions especially that of the current physical establishment which promotes Einsteinian relativity as if his theories were the final scientific answer to all questions concerning the universe Einstein was a great scientist no doubt but today he is exalted as the prophet of our time whose words are swallowed as the highest wisdom by lay people Further the cosmology founded upon his relativity theories are feigned to buttress the stance of the new atheism It is unbearable that our scientific societies and magazines do not accept ideas which question the currently established scientific paradigm This is dogmatism at its worst
