Proceedings of the 2025 4th International Conference on Engineering Management and Information Science (EMIS 2025)

Seyed Mohammadreza Ghadiri, Sri Devi Ravana, Mohd Johari Mohd Yusof, Shamzani Affendy Mohd.

Din, 2025-06-23 This is an open access book 2025 4th International Conference on Engineering Management and Information Science EMIS 2025 aims to bring together researchers practitioners and industry experts from diverse fields to discuss the latest advancements and trends in engineering management and information science Building on the success of its previous editions EMIS 2025 will continue to foster an interdisciplinary platform that encourages collaboration and knowledge sharing among participants With rapid technological advancements and the increasing complexity of engineering projects this conference provides an essential forum for addressing the challenges and opportunities faced in the contemporary landscape Attendees will gain valuable insights explore cutting edge research and network with peers to establish connections that can lead to innovative solutions and collaborations in the future EMIS 2025 will cover a wide range of topics pertinent to engineering management and information science including but not limited to project management methodologies data analytics in engineering risk management supply chain optimization and the impact of artificial intelligence on engineering practices Additionally the conference will explore the role of sustainability in engineering management innovative practices in information systems and the implications of emerging technologies in various engineering fields We invite original research papers case studies and panel discussions that contribute to the ongoing discourse in these areas Our aim is to highlight best practices and innovative approaches that can drive performance and efficiency in engineering and management sectors EMIS 2025 distinguishes itself from previous editions by incorporating a more robust focus on practical applications of emerging technologies in engineering management and a greater emphasis on sustainability This year we will feature specialized workshops and interactive sessions that allow participants to engage in hands on experiences fostering deeper learning and collaboration Additionally the conference will include keynote speeches from prominent leaders in the field who will share their insights on the future of engineering management and information systems Our commitment to inclusivity will be reflected in a wider range of topics and a richer diversity of speakers and participants ensuring that all voices are heard and represented in the discussions This evolution aims to enhance the conference experience making it more relevant and impactful for all attendees

Object-Oriented Application Development Using the Caché Postrelational Database

Wolfgang Kirsten, Michael Ihringer, Mathias Kühn, Bernhard Röhrig, 2012-12-06 Nowadays newly developed software packages are often obsolete already at the time of their introduction Object oriented software development is a possible if not the only solution to this dilemma applications are modeled as software objects that describe the properties and the behavior of real world entities Such objects are encapsulated in that they hide behind a publicly known interface the complexity of their internal data structures and behaviors This enables objects to be used in a wide range of program

packages without needing to know the details of their internal implementation Linking object oriented modeled applications with a database places special demands on a database management system and development environment when the usual performance and semantics losses are to be avoided This book provides a detailed description of the object model of the Cach postrelational database This second revised and expanded edition includes the many new features of Cach 5 There is a comprehensive description of the new Cach Studio with its improvements for developing and debugging applications as well as a whole new chapter about XML and SOAP based Web Services The chapters about Java ActiveX and the SQL manager have undergone a complete revision

The Future Internet Federico Alvarez, Frances Cleary, Petros Daras, John Domingue, Alex Galis, Ana Garcia, Anastasius Gavras, Stamatias Karnourskos, Srdjan Krco, Man-Sze Li, Volkmar Lotz, Henning Müller, Elio Salvadori, Anne-Marie Sassen, Hans Schaffers, Burkhard Stiller, Georgios Tselentis, Petra Turkama, Theodore Zahariadis, 2012-04-29 Irrespective of whether we use economic or societal metrics the Internet is one of the most important technical infrastructures in existence today It will serve as a catalyst for much of our innovation and prosperity in the future A competitive Europe will require Internet connectivity and services beyond the capabilities offered by current technologies Future Internet research is therefore a must The Future Internet Assembly FIA is a successful and unique bi annual conference that brings together participants of over 150 projects from several distinct but interrelated areas in the EU Framework Programme 7 The 20 full papers included in this volume were selected from 40 submissions and are preceded by a vision paper describing the FIA Roadmap The papers have been organized into topical sections on the foundations of Future Internet the applications of Future Internet Smart Cities and Future Internet infrastructures

From Polarisation to Multispecies Relationships Janet J. McIntyre-Mills, Yvonne Corcoran-Nantes, 2021-08-05 This book explores the concept of multi species relationships and suggests critical systemic pathways to protect shared habitats This book discusses how the eradication of species as a result of rapid urbanisation places humanity at risk This book demonstrates how narrow anthropocentrism has focused on the rights of human beings at the expense of other species and the environment This book explores a priori norms and a posteriori measures and indicators to include and protect multiple species This book aims to strengthen institutional capacity and powers to address and extend the UN 2030 Sustainable Development Agenda by drawing on local wisdom but also the need to implement laws to prevent ecocide This book highlights that our fragile interdependence requires a recognition of our hybridity and interconnectedness within the web of life and suggests ways to reframe policy within and beyond the nation state to support living systems of which we are a strand
