

Two Concepts of Secularism

AKEEL BILGRAMI

....My subject is the familiar dialectic between the concept of nation and that of religious community; and, though many of the conclusions drawn here are fundamentally generalisable, I will, for the sake of precision and detail, restrict my focus to India. The twin elements in the dialectic conspire toward my eventual theme of secularism, about whose precariousness in India I want to offer a philosophical diagnosis, and the very rudimentary beginnings of an alternative conception....

....What is it that we want explained? The answer on the surface seems obvious. For 17 initial years the leadership of independent India fell into the hands of Nehru and the Congress Party. Nehru's vision of a modern secular India is usually conceded by even his most vocal critics to be a genuine and honourable commitment. A comparison with the long stretches of either anti-secular or undemocratic regimes in Pakistan after the untimely death of Jinnah (who after leading a communal nationalist movement adopted much the same vision as Nehru's for the newly created Muslim nation), and also a comparison with what might have happened if other leaders such as Vallabhbhai Patel had been at the helm in India instead of Nehru, must allow the conclusion

Two Cheers For Secularism:

Two Cheers for Secularism Sidney Brichto, Richard Harries, 1998 It is often that we live in a world that is becoming increasingly secularized Religious believers are supposed to lament this fact and non believers to applaud it But suppose there are values in the secular stance that are essentially and profoundly religious In which case to write off the whole secular enterprise would be shallow in the extreme In fact Dietrich Bonhoeffer one of the most devout and passionate Christians of the 20th century who was killed for his part in the plot to assassinate Hitler did think that the secular movement that has developed since the 15th century should not be interpreted as anti religious On the contrary it has been teaching people to live as fully responsible human beings aware of our strengths and what we can achieve as well as our weaknesses However from the perspective off a person with religious faith the loss of a transcendent order giving a divine meaning and purpose to human existence cannot be contemplates without a poignant sense of loss Our hope is that this book written from a variety of standpoints atheist agnostic and religious and from within religion from Judaism Christianity and Islam will provoke people to be more critical both about the alleged secularism of our times and also of our received religious heritage We have to make up our own minds We have no other option But the contributors to this volume could go beyond this in agreeing that this freedom of choice is not just a necessity but a blessing And this I suppose is why we would all or nearly all want to give two cheers for secularism For the emphasis upon the liberty and profound responsibility of individual choice is one of the most significant consequences of secularization from Introduction p 7 p 10

Secular Foundations of the Liberal State in Victorian Britain William C. Lubenow,2024 Examines the entanglement of secularity and liberality in the foundation of the modern state in Britain Modern Britain emerged from the outcome of the French Revolution and the Napoleonic Wars The rather standard Whig account of the long nineteenth century is one of growing stability progress and improvement And yet nothing was preordained or inevitable about the period s stability Ruling elites felt the constant anxieties of revolutionary terrorism As Lubenow argues it was a period of disorganization seeking organization The great nineteenth century reform acts against religious monopoly were aspects of this process of political organization While religion did not disappear these political actions gradually changed the constitutional position of religion As a result a political vacuum was created which was then filled by a secular clerisy These fit and proper persons educated in the reformed universities qualified by success in competitive examinations began to fill positions in the Civil Service and in the professions The effect was to replace the eighteenth century system of confessional loyalties with a liberal political culture based on merit Lubenow s latest study examines the work of these intertwining nineteenth century secular liberal processes Steeped deeply in archival research this book considers biographical characteristics such as education political connections and social associations but it is equally conceptually guided by categories such as liberalism and secularism It fills an important gap in the political history of nineteenth century British liberalism by taking up the question of entanglement of secularity and liberality in the foundation of the modern state
