But in physics, time is more than just a way to measure the duration of events. It is a fundamental concept that is used to describe the behavior of the universe itself.

How the World Was Made K B Napier,2018-09-24 This book could have been ten times longer but it serves the purpose of introducing Christians to the truth concerning the beginning of the world and the universe The first three chapters of Genesis describe historical facts not myths as the Hebrew texts prove Most quotes are by scientists Evolutionists jealously guard their failed hypothesis because as they say they cannot let God get a foothold in science In itself this is an admission of anxiety that truth will one day be shown and it is NOT found in scientism which is the fake version of science There are absolutely NO proofs for evolution But how many know this Evolutionists are so scared of this truth getting out they will resort to legal restraints They are so afraid they enforce evolution only in schools by intimidation and false science and denigrate students in universities for daring to question evolutionary orthodoxy Yet genuine scientists KNOW evolution is fake They hate God That s it
