World Class Teaching And Learning In Global Times:

World Class William Gaudelli, 2014-04-04 How have school curricula been affected by the ripple effects of globalization How do teachers and students attempt to understand their complex world Most states require world teaching in some form yet little is known about how teachers and students engage in this critical curricular area *World Class Teaching and Learning in Global Times* directly fills this need by providing a detailed inside look at global education in three high schools The data from the study drawn from extensive interviews and observations illustrate the daily challenges and complexities of global teaching and learning Comprehensive yet scholarly this volume raises thought provoking questions for both theorists and practitioners addresses controversial issues embedded in global education and throughout the social studies curriculum such as the tension between universalism and cultural relativism the problematic nature of identity in classroom discourse and the apparent duality of national and global loyalties connects issues particular to global education with wider scholarship in education examines the interplay of theory and practice in global education and more broadly the social sciences and provides an exploratory and provocative look at dimensions of global civics with an analysis of the events of 9 11 01 and how they have shaped global perspectives about living as one planet The book is organized in three parts contexts problems and alternatives Contexts allows readers to consider global education from multiple perspectives teacher student administrator community member and scholar Problems focuses on pedagogical challenges associated with global education Alternatives provides reflection points that encourage readers to consider different ways we might converse about global teaching and learning Written for scholars practitioners and students in social studies curriculum and instruction global multicultural education and related fields *World Class Teaching and Learning in Global Times* is an excellent text for preservice and graduate level courses in these areas

Re-Imagining Curricula in Global Times Jennifer M. Mellizo, 2023-07-28

Through this book the author examines the role of music education within the larger global education movement Specifically the author argues music education has unique potential to foster positive global identity and to promote higher levels of intercultural sensitivity during adolescence Music educators can use the framework in this book to craft lessons that will help their adolescent students develop positive global identities as they progress towards higher levels of intercultural sensitivity within the context of musical learning experiences The book also offers a framework that can help practicing and pre service music educators to engage in the type of cultural and musical self reflection needed to resist deeply engrained hegemonic tendencies As such more students have access to an inclusive flexible and meaningful musical education Within the final two chapters the author proposes and provides concrete examples of a new curricular planning strategy for music educators which synthesizes the information presented in the preceding chapters and provides a concrete vision for re imagining music education as global education

Global Citizenship Education William Gaudelli, 2016-03-22 Global Citizenship Education addresses the intersection of globalization education and programmatic efforts to prepare young people to live in a more interdependent complex and fragile world The book explores topics such as sustainability education cultural diversity and human rights education offering critical insights into how these facets of GCE are interpreted around the world The book also strives to give voice to student populations within historically marginalized communities rather than focusing solely on the role of GCE in elite schools Gaudelli blends theory and practice to provide both an overview of GCE as well as examining current efforts to develop more globally conscious classrooms Blending empirical research and practical illustrations this important volume encourages educators to take seriously their own call to prepare young people to engage global challenges with a sense of urgency and helps chart a new direction for global learning that is increasingly expansive dialogic and inclusive

Civic Education for Diverse Citizens in Global Times Beth C. Rubin, James M. Giarelli, 2013-10-11 This book explores four interrelated themes rethinking civic education in light of the diversity of U S society re examining these notions in an increasingly interconnected global context re considering the ways that civic education is researched and practiced and taking stock of where we are currently through use of an historical

understanding of civic education There is a gap between theory and practice in social studies education while social studies researchers call for teachers to nurture skills of analysis decision making and participatory citizenship students in social studies classrooms are often found participating in passive tasks e g quiz and test taking worksheet completion listening to lectures rather than engaging critically with the curriculum Civic Education for Diverse Citizens in Global Times directed at students researchers and practitioners of social studies education seeks to engage this divide by offering a collection of work that puts practice at the center of research and theory

Social Studies for the Twenty-First Century Jack Zevin, 2013-08-21 Social Studies for the Twenty First Century Third Edition weaves theory curriculum methods and assessment into a comprehensive model to guide middle and secondary teachers in setting objectives planning lessons units and courses choosing classroom strategies and constructing tests for some of the field s most popular and enduring programs It offers practical interesting exciting ways to teach social studies and a multitude of instructional and professional resources for teachers The text includes separate chapters on teaching each of the major areas of the social studies curriculum Its reflective and integrative framework emphasizes building imagination insight and critical thinking into everyday classrooms encourages problem solving attitudes and behavior and provokes analysis reflection and debate Throughout the text all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic factual reflective analytical and affective judgmental components These three components are seen as supporting one another building the groundwork for taking stands on issues past and present At the center is the author s belief that the heart and soul of social studies instruction perhaps all teaching lies in stimulating the production of ideas looking at knowledge from others viewpoints and formulating for oneself a set of goals values and beliefs that can be explained and justified in open discussion New in the Third Edition Summaries of recent research particularly in history education that have been published since the last edition Increased attention to social studies standards as well as those for civics economics and history An enriched view of teaching history and social studies with a wide array of sources ranging from material objects through primary sources on to art music and literature Tightening of the text to make it shorter and more pointed including a few provocative new ideas More and better organized ideas for classroom group and individual activities and cooperative learning Expanded appendices on instructional resources include the rapidly growing use of websites New visuals that are better integrated into the text and which teachers can use in their classrooms as lessons in visual literacy and Continued efforts to inject a bit of humor and self criticism into a field of education most students view as a sizeable trunk of dead and deadly facts Social Studies for the Twenty First Century Third Edition is a primary text for secondary and middle social studies methods courses

Lund,Paul R. Carr,2008 In this provocative collection of essays with a distinctly critical and nuanced approach to how democracy is taught learned understood and lived authors from four continents share their visions on how democracy needs to be cultivated critiqued demonstrated and manifested throughout the educational experience The collective concern is how we actually do democracy in education The essays argue that democracy must be infused in everything that happens at school curriculum extra curricular activities interaction with parents and communities and through formal organization and structures One of the book s central questions is Are educators merely teaching students skills and knowledge to prepare them for the world of work or is education more about encouraging students to thrive within a pluralistic society This book reveals that democracy is an ethos an ideology a set of values a philosophy and a complex and dynamic terrain that is a contested forum for debate From seasoned veterans to emerging scholars these writers challenge the idea that there is only one type of democracy or that democracy is defined by elections Using a range of theoretical conceptual and methodological approaches each essay makes a compelling case for how education can advance a more critical engagement in democracy that promotes social justice and political literacy for all Diverse examples illustrate the theme of doing democracy With its numerous models for teaching and learning to encourage critical thinking and engagement this book is certain to be an invaluable resource to educators researchers students and anyone with a passion for democratic ideals **Making Citizens** Ramona Maria Fruja,2010 *Comparative Education* Patricia K.
